TURKS LEAVE CONFERENCE IN TUMULT

NO RELIEF SEEN IN REPARATION ROW IN EUROPE

Washington Officials Show
Concern Over Trend of
Affairs Abroad.

U. S. OFFERS HELP

Germany Granted Permission
To Present Pleas Before
French Plan Adopted.

(By the Associated Press)

WASHINGTON, Jan. 6.—The possibility of any development abroad to change the policy of France and bring American aid into the reparation breach in Europe appeared tonight to be fading hour by hour.

There is reason to believe that the Washington government not only sees no further opportunity at this time to suggest a way to Franco-British reconciliation but also lacks any intimacy that its good offers will be sought from across the Atlantic at least in advance of an actual test of the French theories on reparations.

Once the French plan has been tried and its results demonstrated, the situation with respects to American aid may change, but there is no doubt that American official opinion is gravely concerned lest political chaos and complete economic breakdown come in Germany before that point has been reached.

The official attitude in Washington is still that of sympathetic friendly to all parties to the crisis and with American good offers and economic strength available at any time to allied leaders if they can find a way of reaching out for American helpfulness. It is certain that no move will be made here prematurely or in a way that might create a hostile impression abroad to embarrass a later lender of American help. The complete official silence at this time in Washington probably is significant of a desire to keep the international air clear of misunderstanding and the way always open for French or British initiative to seek the aid of the United States.

PARIS, Jan. 6.—Germany will be given a hearing by the reparation commission before any action is taken on the French proposition to have her declared in default on coal deliveries, the commission decided today.

When the question came before the commission, it approved the German request for a hearing.

Berlin was immediately notified and asked to send experts so they can be heard by the commission next Monday.

Sir John Bradbury, the British member, attended the session. There was no discussion of the merits of the case. The Germans are entitled, under the terms of the Versailles treaty, to present their argument, and Louis Barthou of France, the proponent of the default measure, offered no objection to granting the hearing.

(By the Associated Press)

NEW YORK, Jan. 6.—President Harding is deeply concerned over the grave turn of events in Europe resulting from the collapse of the conference of Premiers in Paris. Senator-elect Simeon D. Fess, of Ohio, told the national republican club today at a discussion of the present foreign policy.

His address was interpreted by many as an intimate revelation of the administration's position in the critical period particularly an assurance that "we should foster the call of an economic conference."

Another Negro is
Slain in Florida
Race Riot Clash

(By the Associated Press)

ROSEWOOD, Fla., Jan. 6.—A new grave was dug in the negro cemetery at Sumner near here late today and in it Sheriff Walker placed the body of James Carrier, whose death at the hands of several white men today was the sequel of the clash between the races at Rosewood, Thursday night.

Carrier was shot to death while standing over the graves of the four other negroes, who fell in the fighting that followed an attempt of a crowd of white men to enter a negro house in search of Jesse Hunter wanted for alleged implication in an attack on a white girl at Sumner.

Mean while Hunter, search for whom has resulted in seven deaths, is still at large.

Jui Jitsu Painful--Granted Divorce

Jake Hamon's Widow Objects to Tactics of Athletic Husband; Claims Rohrer Beat Her When She Asked for \$18.

CHICAGO, Jan. 6.—Mrs. Georgia Hammon Rohrer, widow of Jake L. Hamon wealthy Oklahoma oil man and political power, who was slain by Clara Smith Hamon, today was granted a divorce from William L. Rohrer, Chicago clubman and are connoisseur.

Mrs. Rohrer in her petition for the decree charged cruelty, alleging that her husband frequently had made her the object of his skillful jujitsu executions "causing great pain annoyance, discomfiture and physical suffering.

No alimony was sought and

the settlement is said to have involved a renunciation by each party of all interest in the estate of the other.

Mrs. Rohrer again will assume the name of Hamon.

The Hamon estate was estimated by her counsel during the hearing at two million dollars.

Mrs. Rohrer's testimony was brief being confined for the most part to the cruelty charge. She said she lived in fear of her husband.

Jake Hamon, Jr., of Ardmore Bell Hamon, children of Mrs. Rohrer both testified in the behalf of their mother.

The Rohrers were married here in December, 1921, about a year after the death of Jake Hamon, sr., in Ardmore.

"On December 3, 1922, I asked him for some spending money," testified Mrs. Rohrer today under questioning of her attorney.

He got angry and told me he did not have any."

"Then he grasped my hand and applied the jui-jitsu causing me great pain and suffering," said Mrs. Rohrer.

Upon questioning by counsel Mrs. Rohrer told the court she had asked the broker for \$18 and he had refused.

VICTIMS SUFFER TORTURE CLAIMS DOCTOR WITNESS

Pathologist Declares that Watt and Daniels Subjected to Unusual Violence.

CLIMAX IN NOTED CASE

Witness Declares Bones of the Dead Men's Bodies Bare Points.

(By the Associated Press)

BASTROP, La., Jan. 6.—Watt Daniels and Fletcher Richards were put to death on a rack of torture according to testimony today of pathologist who had examined their crushed and mutilated bodies after the bodies were recovered from a lake near here. They were victim of black hooded band, it was testified by their companions who escaped with floggings.

Exhibiting crushed and broken bones as possible evidence the pathologists testified that scientific examination of the bodies of the men showed that they had been tortured on a device "especially constructed for inflicting punishment."

That the men, who halted the automobile party of which Daniels and Richards were members wore black hoods, was testified to by witnesses who felt the wrath of the raiders but were allowed to return to their homes after being flogged.

These were the outstanding features of the day.

(By the Associated Press)

BASTROP, La., Jan. 6.—Dr. Charles Duval, pathologist, testified today in the open hearing investigating masked band outrages in Morhouse parish flatly declared the injuries he found when he performed an autopsy on the bodies of Watt Daniels and Fletcher Richards, alleged masked band victims, must have been inflicted by some device of torture and inflicted with the arms outstretched, either perpendicular or at right angles.

Dr. Duval, who presented the report of the autopsy conducted by himself and John A. Langford, his associate, brought his testimony to a conclusion and a climax by producing bones taken from the bodies of the two men showing fractures on the arms and legs almost equal distance—in each instance in three places—and producing portions of the crushed skull and other bones.

Dr. Duval declared that the fracture and injuries to the body could not have been produced by dynamite which preceded the finding of the bodies on the surface of Lake La Fourche in the northeast portion of Morhouse parish two weeks ago—four months after the two men had been kidnapped by a masked band.

Mr. Cooke was then introduced and stated that he found more enthusiasm here than anywhere else he had been and at once began work. He made a splendid impression on the class and the rehearsal was carried through in an excellent manner. Not knowing how many would be present, the music ordered was insufficient for the attendance, but an ample supply has been ordered and will be here in time for the next rehearsal which will take place Friday evening, January 12, at 7:30 o'clock at the First Christian church.

J. F. Weldon has been informed that his exhibit of white Wyandot chickens at Vernon, Texas, won high honors. He won first cockerel and sweepstakes cockerel, third cock, 1, 2 and 3 hen and second pen. He had 16 birds on exhibit there and at the same time had 14 on exhibit at the Ada show. As we have observed several times before, Pontotoc county is coming to the front in the matter of poultry raising. At Vernon, Mr. Weldon came in competition with some of the best strings of chickens in Texas.

AMERICAN BIBLE SOCIETY
HAS BUDGET INCREASE

(By the Associated Press)

NEW YORK, Jan. 6.—The 1923 Budget of the American Bible Society for the translation, publication and distribution of Bibles will be \$1,160,000, an increase of \$40,000 over 1922, Frank M. Mann, General Secretary, announced.

Estimated requirements totaled \$1,405,244, but a cut of \$244,467 was made because income for the full amount was not in sight.

The amount voted will be used in furnishing the Scriptures in more than 150 languages and dialects in practically every country in the world.

Bernard Shaw never eats meat.

LAUSANNE PEACE PARLEY SUFFERS SEVERE RUPTURE

Turk Delegate becomes Angry and Leaves Conference to Allies.

CURZON IN MIXUP

British Delegate Accepts the Challenge of Turks on Foreign Policy.

(By the Associated Press)

LAUSANNE, Jan. 6.—The Turkish delegation to the near east conference left the meeting hall today as a protest against the allied insistence upon the establishment of an Armenian national home.

According to the Turkish account of the incident which proved a sensation in conference circles, Chairman Montagna of the sub-commission on minorities read a statement favoring the Armenian home and was followed by Sir Horace Rumbold of England, who spoke in advocacy of establishing the home in Cilicia. Sir Horace also wanted Turkey to give an independent district to the Assyrian-Chaldeans, and the regions south of Lake Van and west of Lake Urmia.

Turk Delegates Leaves Parley

Riz Nur Bey, the Turkish spokesman, declared he understood the allied interest in Armenia and others was because the allies had invited them to revolt and therefore fell morally bound to help them.

Riz Nur said he must consider today's allied declaration as not having been made and that it was his duty to leave the meeting. He walked out amid the murmur of the other delegates.

Conference circles were seething with excitement after the incident and wondered whether it forecast further affairs of a sort calculated to disturb if not disrupt the entire conference.

It was pointed to as, in any event, indicating that affairs were approaching a crisis.

Accounts differ as to what actually happened at today's meeting. The allied spokesman declared they were far from insisting on the Armenian home. On the contrary they had said there should be no question of insertion in the Lausanne treaty. They had merely asked that Turkey, for humanitarian reasons, give her earnest attention to the question of allotting some corner of Turkey to the Armenians, where they would enjoy some degree of local autonomy under the sovereignty of Turkey and be given certain rights.

Curzon Accepts Challenge

Peace war was the grave issue placed squarely before the near eastern conference today. Ismat Pasha for Turkey brought this issue concisely before the delegates when after refusing all allied suggestions concerning special courts for foreigners in Turkey he declared solemnly:

"Gentlemen the key to peace lies in your hands."

Lord Curzon accepting the charge retorted:

"If peace is to come at Lausanne it is essential that some arrangement on the question as foreign tribunals be arrived at," and he added significantly:

"We hope that time will soften the Turkish attitude and that Turkey will not maintain her position of today."

The discussion took place before the full commission on capitulation, which adjourned without reaching any accord on the most vital question of the Lausanne agenda and without fixing a date for the next hearing.

Retired Admiral Found Seriously Injured at Home

(By the Associated Press)

CLEVELAND, O., Jan. 6.—Rear Admiral Henry G. Leopold, U. S. N., (retired) was found today in the bathroom of his home in Lakewood, a suburb of this city, with a deep wound in his throat. His head rested on a pillow and a razor blade lay on the floor. He had lost a quantity of blood and physicians at the hospital said his recovery is doubtful.

Admiral Leopold, who is 63, suffered a nervous breakdown, and returned home recently from the marine hospital at Mare Island. He served under Dewey in Manila Bay. His more recent service was at Mare Island, Calif.

STORM BREWING IN STATE FIGHT

Antis Gathering Forces in Re- ported Friendship Award of Printing

(By the Associated Press)

OKLAHOMA CITY, Jan. 6.—A straight out fight to test the power of the farm labor reconstruction league in the lower house of the legislature promised tonight to break out Monday when the report of the house committee on printing is taken up for consideration.

Reports leaked out during the day that by a majority vote the committee gave all printing awards to the Oklahoma Leader socialist labor daily here and organ of the reconstruction league. Charges were made that the award was voted without consideration of bids from other concerns.

Several house members asserted that the proposition had been jammed through the committee by outside dictation and they declared they were ready to go on the floor of the house Monday and give the matter a thorough airing.

Two members of the committee were elected with league endorsement and two others are said to have maintained a close alliance with the reconstructionists.

John F. Garner and Marshall Smith, one of the members of the committee were selected from the small-Dixie-long independent group Leslie E. Slater, minority floor leader is the republican member.

It was intimated that the latter three would present minority report Monday and that the fight for its adoption would be led by W. E. Disney of Muskogee who has already headed two successful assaults in the house against the administration.

Gigantic Exchange in Movie Industry Reported on Foot

ATLANTA, Ga., Jan. 6.—S. A. Lynch has reached an agreement with the Famous Players-Lasky corporation to surrender control of his holdings in the motion picture business in the south, according to information received here tonight from New York.

The deal involves an exchange of \$5,700,000 for which Lynch will relinquish his control of southern enterprises incorporated and subsidiary corporations represented by 200 motion picture theaters in the south and five paramona film exchanges located in Atlanta, Dallas, New Orleans, Charlotte and Oklahoma City.

Final contracts and agreements covering the deal will be signed early next week and agreement made retroactive to Jan. 1, according to the information from New York.

Masonic Club is Organized Among College Students

A Masonic club, composed of student and faculty members, was organized at the East Central college Friday night for the purpose of studying historic facts concerning Masonry.

A. B. Morrison was elected president of the club and A. L. Hathaway was named secretary-treasurer at the Friday night meetings.

Regular meetings will follow the initial conference of the college Masons.

The club will discuss the various historic points of Masonry outside the various ritual of the order.

MARION AGAIN SCENE OF COAL MINE LABOR

MARION, Ill., Jan. 6.—An echo of the killing of twenty-three men in the Herrin riots came today when the first coal mine since the tragedy last June poured down the red clay embankment into waiting cars.

Amid charred fragments of burned mine office, and a sight of the twisted, rust covered remains of three switch engines, wrecked by the mob, groups of miners went about their tasks.

From between two great mounds of earth a monster steam shovel used to uncover the coal poured tons of red clay upon the spot where the non-union miners had surrendered on June 22 and from which twenty of them had been led forth to their deaths. After months consumed in repair, the wreckage wrought during the riots in the mine, then the property of the but now known as the Carlisle See company, again, is in full operation with little remaining to tell of the tragedy of which it had been the scene.

Several house members asserted that the proposition had been jammed through the committee by outside dictation and they declared they were ready to go on the floor of the house Monday and give the matter a thorough airing.

Two members of the committee were elected with league endorsement and two others are said to have maintained a close alliance with the reconstructionists.

John F. Garner and Marshall Smith, one of the members of the committee were selected from the small-Dixie-long independent group Leslie E. Slater, minority floor leader is the republican member.

It was intimated that the latter three would present minority report Monday and that the fight for its adoption would be led by W. E. Disney of Muskogee who has already headed two successful assaults in the house against the administration.

MANY TO ATTEND BARBECUE PARTY

Cullins Receives Telegram of Appreciation; Ada Band to be on Hand.

MEMBERSHIP INCREASED IN STATE CONFERENCE

OKLAHOMA CITY, Jan. 6.—Reinstatement of Muskogee high school suspended from the association two years ago and acceptance of Bartlesville high school as a new member were made at the annual meeting of the Oklahoma high school athletic association here today. The action of the association increases the membership of the "little ten" to twelve members.

Rumors that Ardmore high school might make application for membership at today's meeting proved unfounded.

To obtain as nearly uniform schedules as possible the conference was divided into an east and west district, the schools of each of the two contesting every members in their own section. Whether games with members of the other districts are scheduled is optional. Most of the schools however, especially the leaders proposed intersectional schedules.

**NO ARRESTS MADE BY
NEW COUNTY OFFICERS**

Ada walked the straight and narrow path during the past week, county officials maintain.

No arrests were made in Ada during the first week of the new administration under Sheriff Sloan.

Two minor arrests were made by sheriff's deputies outside the city during the week, Sloan reported.

The present session county court has kept the sheriff's office busy serving summonses and court orders.

ATHLETICS HERE PAY FINANCIALLY

Graduating Letter Men to Receive Sweaters for Grid Honor.

For the first time in a number of years athletes at Ada high school proved a paying proposition. This was the announcement made today by Prof. W. A. Hill, who said the collection of insurance on the Ada-Atoka game put the team ahead financially.

A ruling recently by the board of directors of the school makes it possible for seniors who receive letters in football to receive sweaters, therefore the nine members of the team who will graduate in the spring will receive their sweaters.

Frank Potts, captain, Laran Molloy, Turner King, Jackie Wright, Charley Gregg, Jesse Carr, William Smith, Paul Rayburn, Frank Morris will receive sweaters as soon as they can be ordered. All men named were granted letters by the school. Frank Potts also was voted the complimentary sweater given by the Model Cloliners.

The team completed a successful season and brought many honors to the school. A defeat at Pauls Valley spoiled an all victorious season, following the forfeit of the Ardmore game.

Vester Willoughby, captain for 1922, Joe Hargis, Drew Page, Joe Baker, Cotton Williams, Amherst Nettles, Burkhardt and several other men are expected to form the team for 1923.

Under the board ruling only seniors can receive sweaters from the school. The men who made letters this year but did not graduate will receive sweaters next year provided they make the team again and graduate, it was explained. This ruling was made in order to keep the players interested in finishing high school and not stopping after receiving their letter and sweater in the sophomore or junior year as is the case in many larger schools.

Fore!-!-!

By AGOLPH BUGG

The tyke of these lines has been feelin' the call of the golf pasture all this week the weather havin' had such a good disposition. But the only way that the tired business man can get out to enjoy the ancient and honorable pastime of the kings is to make a daylight savin' law of his own and grab his clubs and go on out to the course about 4:30 p.m. in the afternoon. They hint no chance for any relief to be had along this line from law during the Hardin' administration. They would not pass a daylight savin' law, even for us golfers, just because the democrats did pass one. Guess it will take a mother war.

Us golfers has a hard time keepin' in condition durin' the short winter days. If it was not for the long winter night and what is possible to be done durin' them, the average man would come out on the course in the spring and waste half of the season gittin' in form again. A occasional game of bridge will keep his mind alert so as he can count his strokes in the spring again if he aint too rotten, but the real way to keep in prime condition durin' the winter months is to become a workin' fan of the modern dance. Football is as tame a game as rock besides the modern game, baseball-aint never had half of the thrill and science, and prize fightin' is a safe, sane and perfectly legal pastime. Somebody ought to invent a insurance policy coverin' accident liability at dances because it is the opinion of the type of these lines that they is going to be some body hurt if the sport makes much more of its so called progress. If you aint been to one of these festivities in the last few years you never could tell when you got there. What the tyke of these lines is tryin' to impress on your minds is that it takes regular lion-fightin' courage to even get out on the floor.

The way this dance game is played now, they all take sides, the men on one team and the girls on the other team. The object of the game seems to be for the men to do somethin' that their partners can't do, but the box score shows they aint won a game yet. The girls know their marbles, too. Most ever dance now days has several dozen collisions that would have been called serious on a railroad but all they does is make some small remark to their partners about some guy and his opponen being awkward and start off again. The music dont mean nothin' now days. All it stems to be for is to liven up the party a little, for they aint none of the players that keeps time to it. A centipede coldn't.

Yes, if a guy could ever get into a physical condition so as to have endurance enough to ever make it through the end of the first dance, he might come out to the course for the first round in the spring and do it in par. But the tyke of these lines aint advisin' anybody to take up the modern dance that aint a powerful athlete.

GUARDS AND HI SCHOOL WINNERS

Three Teams are Tied for the Lead up to Saturday Night's Games.

In two thrilling games of basketball at the armory Saturday night the high school and guardsmen emerged victorious. Guardsmen defeated the cement plant 13 to 9, and the high school defeated the Cubs 13 to 12. It was the hardest fought game of the league season.

This gives the high school claim to more recognition from its league opponents and places the Cubs further back than the cement plant lost its third game.

Three teams had tied for first place up to the games Saturday night. Two teams were tied for the cellar position and the Cubs was then leading by the margin of one game. Results tonight placed a considerable change in the team standing.

The three leading teams have two more games to play the first half and the other squads will have three games remaining. Due to conflict and interruptions no fair estimate on how the first half will end can be made.

Games will be played on regular schedule following the games Saturday night each Tuesday and Saturday night being used for a double header. All games will be played in the national guard armory on North Broadway.

Standing of the Teams

Team	G	W	L	Pctg.
Adt High	3	2	1	.666
Ada News	3	2	1	.666

Amateur Athletic Union Awards New Records in Sports

(By the Associated Press)

NEW YORK, Jan. 6.—The amateur athletic union which through Louis Goldsmith, chairman of the rules committee, today approved 51 record breaking performances, 47 in swimming and 4 in track and field events made last year. Thirty-three of these marks will go down as American records, while 18 will be registered as noteworthy performances, a category including feats

ADA HIGH GIVEN ARDMORE GAME

Oklahoma Athletic Control Board Hands Victory to Local Team.

Ada high school took over the Ardmore football game on a forfeit, according to the ruling of the board of control of the Oklahoma high school athletic association. Wetumka high school was suspended from the board and all games forfeited.

Ada played at Ardmore on Friday, October 27, losing the game 30 to 6. The score made by Ada was the first scored against Ardmore until she was defeated 7 to 6 at the hands of Chickasha when he season closed.

Andy Alberson, the man named by the board of control as being ineligible and thereby causing the forfeit, played against Ada in that game. He appeared in the line up as left half back and starred, making one of the Ardmore touch-downs.

The line-up for the game was as follows: Hewitt and M. Brown, ends; Brown and Hamilton, tackles; Gibson and Tate, guards; McLevy, cented; Holt, quarterback; Alberson and Willingham, half backs; E. Holt, full back.

Ada used the regular line-up with the exception of Jackie Wright who was playing center of Laran Molloy. It was due to the inexperience of Wright at center that gave the Ardmore team an advantage great enough to win, fans say.

As matters now stands, Ada gets the game by a 1 to 0 score. This gives the local team a season with eight victories and one defeat.

Ardmore was severely reprimanded by the board of control. Coach Cox was quoted on returning to Ada as saying that Ardmore fans and team gave his men the dirtiest deal any team had ever attempted against Ada. All teams opposing Ardmore this year protested against the players and against the treatment. Chickasha entered a protest against the exhibitions of the side lines, which also drew a reprimand from the board of control.

Charges against a number of other schools were either dropped or found to be insufficient. Ada high school's football record for the year now stands:

Ada 14, Okmulgee 0.
Ada 18, Wetumka 6.
Ada 10, Purcell 6.
Ada 1, Ardmore 0.
Ada 33, McAlester 7.
Ada 34, Henryetta 3.
Ada 3, Pauls Valley 6.
Ada 43, Wilson 0.
Ada 19, Atoka 0.

CUE ARTIST OF FRANCE IN U.S.

Conti Scheduled for Match With Jake Schaeffer at Chicago.

(By the Associated Press)
CHICAGO, Jan. 6.—Rober Conti, the twenty-one year old billiard champion of France will enter the challenge match against Young Jake Schaefer here January 8, 9 and 10, confident of conquering the Chicagoan, and thus earn the right to challenge Willie Hoppe, the reigning champion, for the 18.2 balk line title championship.

The match will be staged at Orchestra Hall and will be on the usual terms of 1,500 points—500 points disposed of each night.

The contest promises to be one of the most interesting ever played in Chicago and despite the great reputation of Young Schaefer, there are many experts who believe the boy from France will this time take his measure.

This opinion is shared especially by those who witnessed Conti's play in the International Tournament at New York, and who were greatly surprised at the improvement in his playing compared with that shown in the 1921 tournament at Chicago.

That Conti is a real match for Schaefer has been proven recently on more than one occasion. Born in France on May 1, 1921, Conti is the youngest of the players who took part in the recent international and for a youngster he has a remarkable record. In France before coming of age, he defeated Dorset, one of the ten best ball liners in France.

In the 1921 tournament in Chicago Conti finished fourth, just behind Cochran. In the last International Conti finished third, ahead of Coccian, and improved his average over that made in the 1921 tournament by figures of 41.8-12 compared to 23.37-61. That shows how fast Conti is coming and how he appears to be a formidable candidate for the championship. His admirers point out that Conti gave Schaefer his first defeat in the 1921 tournament when he beat him in the fifth game 400 to 202.

under conditions or over distances not recognized as standard. All of these performances are in addition to about 100 others in track field and swimming to which official recognition was given by the A. A. U. at its annual meeting last November.

Cameron to his peril before it was too late. Desperate fighting saved him from being hurled to the ground and stamped and crushed. Warren seemed a maddened giant. There was a reeling, swaying, wrestling struggle before the elder man began to weaken. Then Cameron, buffeted, bloody, half-stunned, panted for speech.

"Warren—hold on! Give me—a minute. I married Nell. Didn't you know that? . . . I saved the child!"

Cameron felt the shock that vibrated through Warren. He repeated the words again and again. As if compelled by some irresistible power, Warren released Cameron, and, staggering back, stood with uplifted, shaking hands. In his face was a horrible darkness.

"Warren! Wait—listen!" panted Cameron. "I've got that marriage

**Warren—Hold On! Give Me—
a Minute—I Married Nell—Didn't You
Know That?"**

certificate—I had it by me all these years. I kept it—to prove to myself I did right."

The old man uttered a broken cry.

Cameron stole off among the rocks. How long he absented himself or what he did he had no idea. When he returned Warren was sitting before the campfire, and once more he appeared composed. He spoke, and his voice had a deeper note; but otherwise he seemed as usual.

They packed the burros and faced the north together.

Cameron experienced a singular exaltation. He had lightened his comrade's burden. Wonderfully it came to him that he had also lightened his own. From that hour it was not torment to think of Nell.

IV

There came a morning when the sun shone angry and red through a dull, smoky haze.

"We're in for sandstorms," said Cameron.

They had scarcely covered a mile when a desert-wide, moaning, yellow wall of flying sand swooped down upon them. Seeking shelter in the lee of a rock, they covered their heads and patiently waited. The long hours dragged, and the storm increased in fury. Cameron and Warren wet scarfs with water from their canteens, and bound them round their faces, and then covered their heads. The steady, hollow bellow of flying sand went on. It flew so thickly that enough sifted down under the shelving rock to weight the blankets and almost bury the men. They were frequently compelled to shake off the sand to keep from being borne to the ground. And it was necessary to keep digging out the packs. They lost the count of time. They dared not sleep, for that would have meant being buried alive.

The storm finally blew itself out. It left the prospectors heavy and stupid for want of sleep. Their burros had wandered away, or had been buried in the sand. Far as eye could reach the desert had marvelously changed: It was now a rippling sea of sand dunes. Away to the north rose the peak that was their only guiding mark. They headed toward it, carrying a shovel and part of their packs.

At noon the peak vanished in the shimmering glare of the desert. The prospectors pushed on, guided by the sun. In every wash they tried for water. With the forked peach branch in his hands Warren always succeeded in locating water. They dug, but it lay too deep. At length, spent and sore, they fell and slept through that night and part of the next day. Then they succeeded in getting water, and quenched their thirst, and filled the canteens, and cooked a meal.

The burning day found them in an interminably wide plain, where there was no shelter from the fierce sun. Mountain peaks loomed on all sides, some near, others distant; and one, a blue spur, splitting the glaring sky far to the north, Cameron thought he recognized as a landmark. The ascent toward it was heart-breaking, not in steepness, but in its league-and-league-long monotonous rise. Cameron knew there was only one hope—to make the water hold out and never stop to rest. Warren began to weaken. Often he had to halt.

Cameron measured the water in his canteen by its weight. Evaporation by heat consumed as much as he drank. During one of the rests, when he had wetted his parched mouth and throat, he found opportunity to pour a little water from his canteen into Warren's.

At first Cameron had curbed his restless activity to accommodate the

pace of his elder comrade. But now he felt that he was losing something of his instinctive and passionate zeal to get out of the desert. The thought of water came to occupy his mind. He began to imagine that his last little store of water did not appreciably diminish. He knew he was not quite right in his mind regarding water; nevertheless, he felt this to be more of fact than fancy, and he began to ponder.

When next they rested he pretended to be in a kind of stupor; but he covertly watched Warren. The man appeared far gone, yet he had cunning. He cautiously took up Cameron's canteen and poured water into it from his own.

This troubled Cameron. He reflected, and concluded that he had been unwisely not to expect this very thing. Then, as his comrade dropped into weary rest, he lifted both canteens. If there were any water in Warren's, it was only very little. Both men had been enduring the terrible desert thirst, concealing it, each giving his water to the other, and the sacrifice had been useless.

Instead of ministering to the parched throats of one or both, the water had evaporated. When Cameron made sure of this, he took one more drink, the last, and poured the little water left into Warren's canteen. He threw his own away.

Soon afterward Warren discovered the loss.

"Where's your canteen?" he asked. "The heat was getting my water, so I drank what was left."

"My son!" said Warren. The day opened for them in a red and green hell of rock and cactus. Like a flame the sun searched and peeled their faces. Warren went blind from the glare, and Cameron had to lead him. At last Warren plunged down, exhausted, in the shade of a ledge.

Cameron rested and waited, hopeless, with not, weary eyes gazing down from their height where he sat. Movement on the part of Warren attracted his attention. Evidently the old prospector had recovered his sight and some of his strength. For he had arisen, and now began to walk along the arroyo bed with his forked peach branch held before him. He had clung to that precious bit of wood. Warren, however, stepped in a deep pit, and, cutting his canteen in half, began to use one side of it as a scoop. He scooped out a wide hollow, so wide that Cameron was certain he had gone crazy. Cameron gently urged him to stop, and then forcibly tried to make him. But these efforts were futile. Warren worked with slow, ceaseless, methodical movement. He toiled for what seemed hours. Cameron, seeing the darkening, dampening sand, realized a wonderful possibility of water, and he plunged into the pit with the other half of the canteen. Then both men toiled, round and round the wide hole, down deeper and deeper. The sand grew moist, then wet. At the bottom of the deep pit the sand coarsened, gave place to gravel. Finally water welled in, a stronger volume than Cameron ever remembered finding on the desert.

The finding of water revived Cameron's flagging hopes. But they were short-lived. Warren had spent himself utterly.

"I'm done. Don't linger," he whispered. "My son, go-go!" Then he fell. Cameron dragged him out of the sand pit to a sheltered place under the ledge. While sitting beside the failing man Cameron discovered painted images on the wall. Often in the desert he had found these evidences of a prehistoric people. Then, from long habit, he picked up a piece of rock and examined it. Its weight made him closely scrutinize it. The color was a peculiar black. He scraped through the black rust, to find a piece of gold. Around him lay scattered heaps of black pebbles and bits of black, weathered rock and

conscious Warren. Moments passed—grew into hours. Cameron still had strength left to make an effort to get out of the desert. But that same inscrutable something which had ordered his strange, involuntary promise to Warren held him beside his fallen comrade. As the long hours wore on he felt creep over him the comforting sense that he need not forever fight sleep. Absolute silence claimed the desert. It was mute. Then that inscrutable something breathed to him, telling him when he was alone. He need not have looked at the dark, still face beside him.

Another face haunted Cameron's—a woman's face. It was there in the white moonlit shadows; it drifted in the darkness beyond; it softened, changed to that of a young girl, sweet, with the same dark, haunting eyes of her mother. Cameron prayed to that nameless thing within him, the spirit of something deep and mystical as life. He prayed for mercy to a woman—for happiness to her child. Both mother and daughter were close to him then. Time and distance were annihilated. He had faith—he saw into the future. The fateful threads of the past, so inextricably woven with his error, wound out their tragic length here in this forlorn desert.

Boy Defies High Governor and is Starter for Reform

(By the Associated Press)

BUENOS AIRES, Dec. 6.—Called on by his proud teacher to make an address of welcome when the governor of the Province of Santa Fe visited his school at Totoros recently, a fourteen year old schoolboy jumped into fame throughout Argentina by telling the governor to his face that he had not kept his election promises to improve the school.

Another face haunted Cameron's—a woman's face. It was there in the white moonlit shadows; it drifted in the darkness beyond; it softened, changed to that of a young girl, sweet, with the same dark, haunting eyes of her mother. Cameron prayed to that nameless thing within him, the spirit of something deep and mystical as life. He prayed for mercy to a woman—for happiness to her child. ADA BANKS IN FINE CONDITION

That money matters in Pontotoc county are considerably easier than they were a year ago is evidenced by a comparison of the statements of the banks of Ada with those of a year ago. Although the cotton crop did not put all of the farmers out of debt, it did considerable and with other sources of income added, there is more money in the county than for a long time. A year ago the bank deposits of Ada totaled a little more than \$2,650,000; now they are approximately \$3,100,000, an increase of about \$450,000. On the other hand the available cash balances in the banks have increased \$880,000, proving that they have greatly strengthened themselves during the twelve months period just closed.

Only a generation or two ago disease was supposed to be sent by Providence as a scourge to the individual or community. With the growth of knowledge of the laws of nature came the advance in ways and means of combatting these unseen enemies of humanity and the realization that in this matter, as in most others, the trouble lay with man himself and not with Providence. When the medical profession taught the world some principles of sanitation and common sense rules of living, the death rate began to fall and it is going lower year by year. Diseases that baffled mankind a half century ago are now easily controlled and it is the dream of the most optimistic that in time all diseases will be exceedingly rare. The great aim is to prevent disease in the first place.

Every town has a man who knows it all. If he is at a ball game he knows exactly when the referee is wrong and can tell you every time a player makes a mistake or pulls a "boner." If he is at a whist party he will tell you how you could have won another trick by playing differently. In short, he knows it all and knows it all the time. It doesn't pay to argue with him. You can't knock any conceit out of him and you will lose your temper. Don't argue with a man who knows it all. The only possible thing you can do is to try to tell a bigger lie than he does, and then you want to tell it last.—Atoka Citizen-Democrat.

It is reported that the coal operators and miners are unable to agree on a basis for work after the expiration of the present contract next April. Reports are also heard of more roads and industries turning to oil for a reliable fuel supply. This means less coal needed. If the owners and miners keep up their chronic state of disagreement a few years more, there will be little left of the industry. New oil fields are being brought in all the time and with a plentiful supply of this valuable fuel large consumers will not care whether a coal strike is on or off.

Senator Reed of Missouri has introduced a resolution on calling for the withdrawal of the American troops now stationed in Germany. During his campaign Harding and his henchmen denounced Wilson for keeping these soldiers over there and promised to bring them home without delay, in the event of Harding's election. He has been in office two years and the boys are still on the Rhine. Evidently that talk was made merely to catch votes, since Harding's action in leaving them over there indicates that he knows that Wilson was right.

Ever since the Russian revolution stories have been afloat to the effect that millions of dollars worth of jewels belonging to the royal family had been smuggled into the United States. The latest is to the effect that they were concealed in the coffin of an American seaman whose body was shipped to New York and buried. The grave has not been examined so the public will just have to guess at the truth of the story until an investigation is made. However, the chances are that like all others, this story will be found to be pure bunk.

An exchange sarcastically remarks that the only kind of needle most girls of today know anything about is the phonograph needle. That is a rather mean thrust, but it reminds us that during the past half-century inventions have done much to lighten the labor of American women. The sewing machine is one of these. Then comes the improved cooking stoves, electric washing machines, irons and such household helps, and greatest of all, or course, is the factory loom which removed the necessity of home weaving. Besides that ready-made clothing is a great help. Certainly women have not been neglected when it comes to inventions to lighten their work.

It is some tumble from the world's champion prize fighter to a peddler of shoe paste, but that is the present state of Siki, the victor over Carpentier. Siki was recently suspended from the realm of pugilism for a period of nine months just about the time he had blown in all his winnings in the Carpentier battle, according to reports from Paris. His eating had to go on, however, so he turned to his means of supplying his pantry. That must have been a severe test of nerve, but he is apparently standing the test.

Tomb of Pharaoh. (Newark News)

Thirty-five years ago H. Rider Haggard launched the fashion of fanciful fiction purporting to tell how life was lived in the days before intimate history. He and his followers painted pictures of glowing beauty that were accepted as clever production of the imagination but not necessarily accurate. It seemed perfectly proper to portray a gorgeness of life that may have been true, although conservative readers at times were loath to swallow all the wealth of detail.

But Haggard and his disciples drew better than they knew. Ancient Egypt had all the luxury and majestic art they credited it with. Archaeology has done much to uncover the daily life of the days of the Pharaohs and now comes the Earl of Carnarvon with a story in the New York Herald of his visit to the recently opened tomb of King Tut-Ankhamen at Thebes, sealed in the fourteenth century before Christ.

In this tomb the imperial splendor of Egypt at the height of her civilization lives again. Everything is still in place as on that far-distant day when he was laid away with pomp and circumstances almost incredible to modern minds. The furniture of the place is said to surpass all precedent and to be an "astonishing revelation" of the beauty and refinement of Egyptian art. Flimsy robes, curtains, cushions and other upholstery are said to have been found in place, with decorations so splendid as to overwhelm the beholder.

Solid things were found, too. There were wonderful carved beds, a throne chair, alabaster vases, paintings of figures obviously royal, and two life sized statues of the king himself, most cunningly wrought in sunburned wood. These have but whetted the ambition of the explorers to penetrate to the innermost chamber, where the king probably lies.

What must have been the scene when that potent monarch was accorded final honors. One can conjure a picture of thousands of people pressing in on the ceremonial procession; the priest in their magnificent investment, the royal mourners in jewel-encrusted robes, the wretched slaves sweating in the tropic sun, the common folk prostrate in the dust as all that remained of their lord passed by.

Pharaoh, wives, great nobles, the common men and women and slaves all are today as the dust in which they stood when Tut-Ankhamen was borne along in thrilling grandeur. But the trappings of his obsequies survive to tell us of today what royalty meant in the youth of the world. It was a day of bitter contrast between the upper and the nether classes. They are gone, and with them much cruelty, injustice and suffering. We salute thee, O Pharaoh. And we are glad we did not live in your time.

American Students Take Active Leads in British Sports

(By the Associated Press)

CAMBRIDGE, Eng.—American students at the Universities here took an active part in the sports of Michaelmas Term, which has just ended. T. E. Pulling (Princeton and Trinity), and W. B. Todd (Princeton and Jesus), have been playing steadily in the Varsity Golf Team, and show every indication of winning their golfing blues. J. H. Van Allen (St. George School and Christ's) who won his blue at tennis last year, and D. K. Key (Harvard and Caius) reached the finals of the Hard Court Doubles Championship where they were defeated after a five set match. Other Americans of the Varsity Hard Court squad are E. N. Case (Princeton and Corpus), A. W. Wilcox (Cornell and Peterhouse), and E. A. Weeks (Harvard and Trinity).

D. A. D. Simpson (Groton and Trinity), the boxing Blue, who won the Light heavy-weight bout against Oxford last spring, is again in form and recently won his match against the Army at Aldershot, will oppose Oxford at Merton shortly. They are J. B. Hilliard (Princeton and Trinity Hall), W. C. Miner (Yale and Magdalene), and W. B. Todd (Princeton and Jesus).

Ada Service and Filling Station Plans New Annex

Following a successful entry upon the sea of business in Ada for the past two years, the Ada Service and Filling Station, Tenth and Broadway, is enlarging and will add a battery service to the already efficient auto service.

Work on the small building which will house the battery station has already been started. It will be constructed of concrete blocks and is located just north of the station.

C. H. McKeller is manager of the station. A complete line of battery accessories is to be installed. Free air, water, and a complete line of accessories are now for the use of patrons. Gas, oils and tires and vulcanizing of inner tubes is also a feature of the business.

C. J. Darwin, an experienced battery man, will have charge of the new battery station. Exide batteries will be carried in stock.

Specialties in car washing, greasing cars and Simonizing cars will be announced. Goodyear and Seiberling Tires are carried in stock.

Our opinion of the man in Fulton, Mo., who has worn a pair of pants 25 years is he stands up too much.

French Government Finds Recovering From War Costly

(By the Associated Press)

PARIS.—The French budget for 1923, now undergoing discussion in the Chamber of Deputies, shows that it costs a great deal of money not only to make war, but also to wind up a war.

Of the total appropriations of 23 billion francs asked for by the government, eight hundred million are to defray expenses due to hostilities. This amount includes no pensions or outlay for reconstruction. The biggest item is 360 million francs for the maintenance of French troops in the Near East. It costs France 56 million francs a year to share in the occupation of Constantinople, and the troops located in the Sarre district cost 24 million a year.

Little odds and ends of expense, such as decorations of persons and towns for valor during the war, the expenses of missions sent abroad, etc., reach the respectable figure of 146 million francs.

Sport Fans Now Look Forward to Ring Bout Here

Sport fans look forward to the Delaney-Cooper 10 round ring bout here January 18 at the Armory hall as the opening of the fight season.

The bout, given by the Elks lodge under the auspices of the Norman Howard Post, American Legion, will be one of the hardest fought fights staged in Ada for some time, sport enthusiasts believe.

Jimmie DeLaney of Shawnee and Archie Cooper of Ada will answer the gong in their third encounter, the pair having met here in one of the fights.

DeLaney is at present training at Morrison but will take up training quarters here early next week.

One Conviction Handed Down in Court Week Here

One conviction, one hung jury and a remaining list of acquittals resulted in the jury county court session with Judge Tal Crawford on the bench during the past week.

J. D. Humes, charged with running an immoral rooming house, the Central rooms, was fined \$100 by a jury late Friday afternoon.

Several cases were transferred to Roff and Allen.

Booze cases occupied a greater part of the docket list in the hearing of the past week.

Civil matters will be taken up before the court next week with a heavy docket facing Judge Crawford.

Other Agents for Auto License Tags Have Offices Here

In a front page article appearing in News columns of Friday it was erroneously stated that W. D. Kennedy, with headquarters at the Ada Auto Tops Works, was the only agent in the city who kept a bona-fide record of auto license applications.

Mrs. M. Bills, with headquarters in the Blanks office over the First National Bank building, as well as Justice of Peace Joseph Anderson, are agents to receive auto license applications.

Mrs. Bills has a letter from M. M. Henderson, state highway commissioner, authorizing her to accept applications and keep a record of the license.

GOLF FEVER PLACES GRIP ON BRITISHERS

(By the Associated Press)

LONDON.—Britannia is in the grip of the golf fever, if the number of new courses being constructed can be taken as an indication. There are at least thirty courses now being built, the largest number laid out in a single year since 1902 when the rubber-cored ball revolutionized the game. The courses are costing on an average of \$50,000 cash.

An innovation is found in courses especially designed for the use of elderly people and beginners, which are being installed by many of the English clubs.

ELKS NOT TO SUFFER PRIVATION FROM WINTER

(By the Associated Press)

YELLOWSTONE PARK, Jan. 6.—Elk in Yellowstone National Park are not to suffer from manger this winter, announces Horace M. Albright, Park Superintendent. Earlier in the fall there were some misgivings as to the food supply for the park's animals.

"We do not believe there will be any loss from starvation this winter," says Mr. Albright. "We have more than 1,200 tons of hay available on our ranches for buffalo and elk, and the range above the 5,500 foot level is good for grazing. Below that elevation, the growth is stunted but better than in the winter of 1919-20, when we lost so many elk."

LONDON.—London's electric lighting bill will be cut by nearly \$5,000,000 yearly it is believed, when a project now in course of completion is made effective.

This provides for the uniting of all electrical supply companies in London and the suburbs, covering an area of 1660 square miles and affecting a population of close on eight million people. There will be only twelve generating stations in the whole area, against about fifty now in existence, and the saving will allow of a reduction in cost of something like 15 per cent per unit.

Announcing--

Smith-Cole Inc.

the newest name in Ada's business roster

But only the name is new. SMITH-COLE Inc., composed of Bart Smith and Joe Cole, who for the past few years have been members of the firm of SIMPSON'S INC. have now purchased the CLOTHING AND SHOE departments of SIMPSON'S, Inc.

The business will be continued at the same location, 117 West Main, with the same lines that have heretofore been carried in these departments of SIMPSON'S INC. The same policies which have contributed so materially to the success of the old organization will be continued.

The best wishes and the entire good will of SMITH-COLE INC., is extended to the firm of SIMPSON'S with whom we were associated for years and by whom we shall continue to make our business residence.

In the future the entire efforts of SMITH-COLE INC. will be directed toward giving Ada and Pontotoc County one of the best and most carefully selected stocks of Men's Furnishings and Shoes for the whole family that this community has ever seen. Remember our shoe stock contains Men's, Women's and children's shoes.

Smith-Cole Inc.

BART SMITH

117 WEST MAIN

JOE COLE

Announcement--

We Take Pleasure in Announcing to Our Customers and the Public in General That

SIMPSON'S

Women's Wear, Dry Goods, Notions Etc.

Will continue in business at the same location under the ownership and management of R. W. Simpson with the same employees as in the past. Our highest endeavor will be to continue to make your shopping here a distinct pleasure. Every individual in this organization is whole-heartedly determined to give you the most helpful and complete service.

Highest Quality---Modest Prices

Not only will the styles continue to be the best and newest, no better merchandise will be found in Ada than here.

Our best wishes and good will are extended to the new firm of Smith & Cole, Inc., who will be our adjoining neighbors.

We wish to express our sincere appreciation for the patronage with which you have so generously favored us in the past and trust we can continue to merit your confidence and co-operation in the future.

HILL DECLARES AID NECESSARY

Maintains Help From the Ada Civic Organizations Due School Band.

Uniforms for the Ada high school band will be purchased.

This was the declaration of Prof. W. A. Hill, principal of the local high school and director of the band. He said that a part of the \$400 had already been raised through a series of concerts.

"We have given the services of the band to every organization in Ada," he said. "But when we give a concert to take steps to raise money to uniform the players, these organizations back down and fail to help us."

Prof. Hill declared that in the future if the organizations of the city failed to support the band, the band necessarily would be forced to take means to obtain pay for its assistance to local organizations.

It is a civic organization, composed and directed by Ada citizens and their sons, he said. The band is half the life of the high school, in the opinion of Prof. Hill and has earned the uniforms though its services to the community.

Uniforms will be needed if the Ada band is to compare with the other high school bands, which will participate in the state meet at Norman early in the spring. Prof. Hill points out. He also wants to show that for three years the organization has played an important part in the affairs of the city, but at the same time has been the most neglected.

It will be necessary for the Chamber of Commerce, Lions Club, Merchants association and other organizations to get behind the band undertakings and boost for it, if these same organizations expect to get the services of the band, Prof. Hill declared.

A series of band concerts are being prepared for the near future, he said. Tickets will be on sale and if support is not given by a purchase of enough tickets to furnish the fund, the threatened step will be taken, Hill intimated.

The band is composed of nearly forty boys in the high school, all of whom live at Ada. They have for the most part grown up in the schools here and uniforms for their band would be only a service which they have earned, Hill believes.

With uniforms the band will not only be able to have more pride in its public appearances, but will also be able to give more unity of action and inject more pep and enthusiasm in public enterprises, Hill added.

OBITUARY

MRS. WALTER C. FLOYD.

Mrs. Walter C. Floyd died at the family home at Roff Friday. She had suffered for sometime from tuberculosis and her passing was not unexpected. Funeral services were held from the First Baptist church.

Deceased was a little past 33 years of age at the time of her passing. She is survived by her husband and three children.

Card of Thanks

We take this method of tendering our thanks and appreciation to our friends who were so good to us during the illness and death of our beloved wife, mother and sister; for the beautiful flowers that cheered her during her long illness; for those who nursed her so tenderly and watched by her bedside. May God's richest blessings be upon all, is our prayer, and when death enters your home God grant that you may be surrounded by such friends to help you bear your sorrow. Words fail us in expressing our appreciation of the exquisite floral offerings. God's messengers of love and sympathy.

W. C. Lee,
Miss Helen Lee,
Mr. and Mrs. R. B. Lee,
Mr. and Mrs. A. V. Lee,
Mr. and Mrs. W. P. Lee,
Mr. and Mrs. C. Kugle,
Mr. and Mrs. Frank Preston,
Miss Emma H. Barton,
Arthur E. Barton.

Prohibition Claims Mexico

MEXICO CITY, Jan. 6.—The government is considering a law looking to virtually bone dry conditions along the international border, it was learned in official quarters today. Under the law "cantinas" within a 35 mile zone along the border would be subjected to such high taxes as to assure their closing down.

NUXATED IRON.

If you are not strong or well you owe it to yourself to make the following test: see how long you can walk without becoming tired. Next take two five-grain tablets of NUXATED IRON three times per day for two weeks. You will notice your strength increase and see how much you have gained. Many people have made this test and have been astonished at the increased strength, endurance and energy. Nuxated Iron is guaranteed to give satisfaction or money refunded. At all good druggists.

THURSDAY BRIDGE WITH MRS. C. V. GOWING

The beautiful sunshine of Thursday afternoon added pleasure to the meeting of the regular Thursday bridge club which met with Mrs. C. V. Gowing in her home at 521 East Twelfth street. Mesdames Taylor, Givens, Case, McKeown, Bayless, Lasater, Hunter and Burton played as regular members. Mesdames Manville, Chaney, Bolen and Parker played as substitutes. The hostess served a salad course for refreshments.

MRS. BARNEY ENTERTAINS FORTNIGHTLY STUDY CLUB

The Fortnightly Study club was entertained at the home of Mrs. Chas. T. Barney, 430 E. Ninth St., Thursday afternoon January 4. Mrs. C. A. Zorn led an interesting lesson on "Ibsen, An Example of the people."

A social hour followed and delicious refreshments were served. Mrs. Virgil Hale will be hostess to the club next Thursday afternoon, January 11 at her home, 129 North Hope.

DOUBLE WEDDING CEREMONY AT BAPTIST PARSONAGE

Dan Cupid came to town Saturday night, when Reverend C. C. Morris, pastor of the First Baptist church, pronounced the vows over two couples in a double wedding at the Baptist parsonage, sisters being brides in the unique ceremony.

Parents of the brides, formerly Misses Ellen and Lillie Mae Hatchet, were the only witnesses to the ceremony.

Those joined in marriage through the double ceremony were: Lester Cope and Miss Ellen Hatchet and Jack Gale and Miss Lillie Mae Hatchet.

The ceremony was performed at 8 o'clock, Saturday night. All parties are residents of Ada and will make their future homes here.

Reverend Morris announced that the ceremony performed Saturday night was the second double wedding during his service in the ministry.

The band is composed of nearly forty boys in the high school, all of whom live at Ada. They have for the most part grown up in the schools here and uniforms for their band would be only a service which they have earned, Hill believes.

With uniforms the band will not only be able to have more pride in its public appearances, but will also be able to give more unity of action and inject more pep and enthusiasm in public enterprises, Hill added.

Mrs. S. M. Blevins, formerly Miss Leone Chauncey, left for her home at Wetumka early in the week. Oscar left Friday to take up his duties at Fort Sill, and Chas. and wife, remembered as Miss Mildred Miller, left Saturday night for his post at Fort Sam Houston in the Aviation Field.

EXTENSION WORK PLANNED FOR HOLSTEIN BREEDERS

CHICAGO, Jan. 6.—Extension work on an intensive character, with the employment of district fieldmen for Pennsylvania, New Jersey, Delaware, Washington, Idaho and Oregon, is planned by the Holstein-Friesian Association of America, whose officials are seeking to interest breeders in sales and marketing and efficient production. The 50,000 Holstein breeders in the country have more than 500,000 registered animals, the association secretary of the civic body:

What shall we do another year? Shall we just sit around and let the rest of the world, with all its industries, enterprises and community development, pass by, or shall we get busy and build a station on this "road of the world" and demand that a few of these industries, etc., be labeled for destination at ADA?

There are very few people in this growing city that have a habit of wanting to "just sit around" most of us are ready and willing to put our shoulder to the wheel and push Ada to the top. We have plenty workers to build this big station now, what about the kind of material that should be put in this building? Pessimism, unfaithfulness and loose business methods is not the kind of material that would build a station that would attract many worthy travelers of this "road of the world" so we must build of the better materials such as Cooperative, public spirited citizenship, solid conservative business methods, etc.

Many Opportunities

We are entering this year 1923 with a wonderful field of opportunities in which to work. A great many things may be accomplished during this year if we will build the station and put out our "flag of invitation." We must put our city out in front and let the world know that Ada is on the map, let the many manufacturers know of the possibilities here and the many people know that we welcome them to our city.

Why not start the year right? Let us forgive and forget the many petty grievances we may have with our neighbor, strike off failures, sorrows and disappointments and make a fresh start in the struggle for happiness and success. None of us can glance backward at 1922 without a feeling of gratitude for the encouraging advance made over the previous year. Industries and business concerns are on a more solid basis and people are more content and have more confidence in being successful in future undertakings.

With confidence comes success. The more confidence our citizens put into our city the more success we may expect to have in getting many worthy industries. We must have confidence in our fellowmen and co-operate in the many undertakings we may hope to accomplish in the future. All must be workers and boosters and ready to start with a board when the gong of opportunity sounds. If we will only do this we can feel assured that our material will build the station that the world is looking for and our city will soon be surprisingly enlarged.

Busy Year Planned

The Chamber of Commerce is preparing for a busy year. We expect to have the confidence and co-operation of the public and with this we should be able to accomplish many worthy undertakings. Open members meetings will be held monthly and we want every member to attend these meetings. A committee has been appointed to make preparations for entertainment. It is hoped that these meetings will bring the ideas of the people closer together and cause a feeling of good fellowship among the members.

A drive for new members will be launched within a few days and you can start the year right by getting your name on the membership list. We need large active membership. The Chamber of Commerce can be just as big as the public spirit of Ada citizens. Faithful workers and boosters can build a greater and better Ada through the Chamber of Commerce and on the other hand, a few people of the "crawfish" type can do a great deal toward backing Ada off the map.

Lets resolve to do the best we can to help our city. To help our city is to our individual benefit as well as to the public. Loyalty to your city inspires confidence among your fellowmen. Be a "BOOSTER" not a "CRAWFISH."

TIRE BUSINESS LOOKING UP SAYS LOCAL DEALER

"Detroit dispatches, giving detailed information on the production programs of the various automobile companies of this world center of the motor car industry, are of such an optimistic tone that automobile men all over the country feel the turn in the tide has finally come," says J. C. Sowers, local Federal Tire dealer.

"In many cases, production today is on the same basis as two years ago. Excluding the great Ford production, the gain in the first months of the year on passenger car production was forty per cent, and thirty-eight per cent on trucks.

"The total production of cars and trucks the first months of the year was 9,486, as compared with 78,995 in December. These figures give only an indication of the steadily increasing volume of business which is now being felt by parts and accessory manufacturers as well.

"The reports indicate that not only the big national shows but the dealers' shows in various cities, has been productive of excellent results, and while conservatively men of the industry believe the return to full production will be slow, yet they see in these figures evidences of a definite and permanent turn for the better."

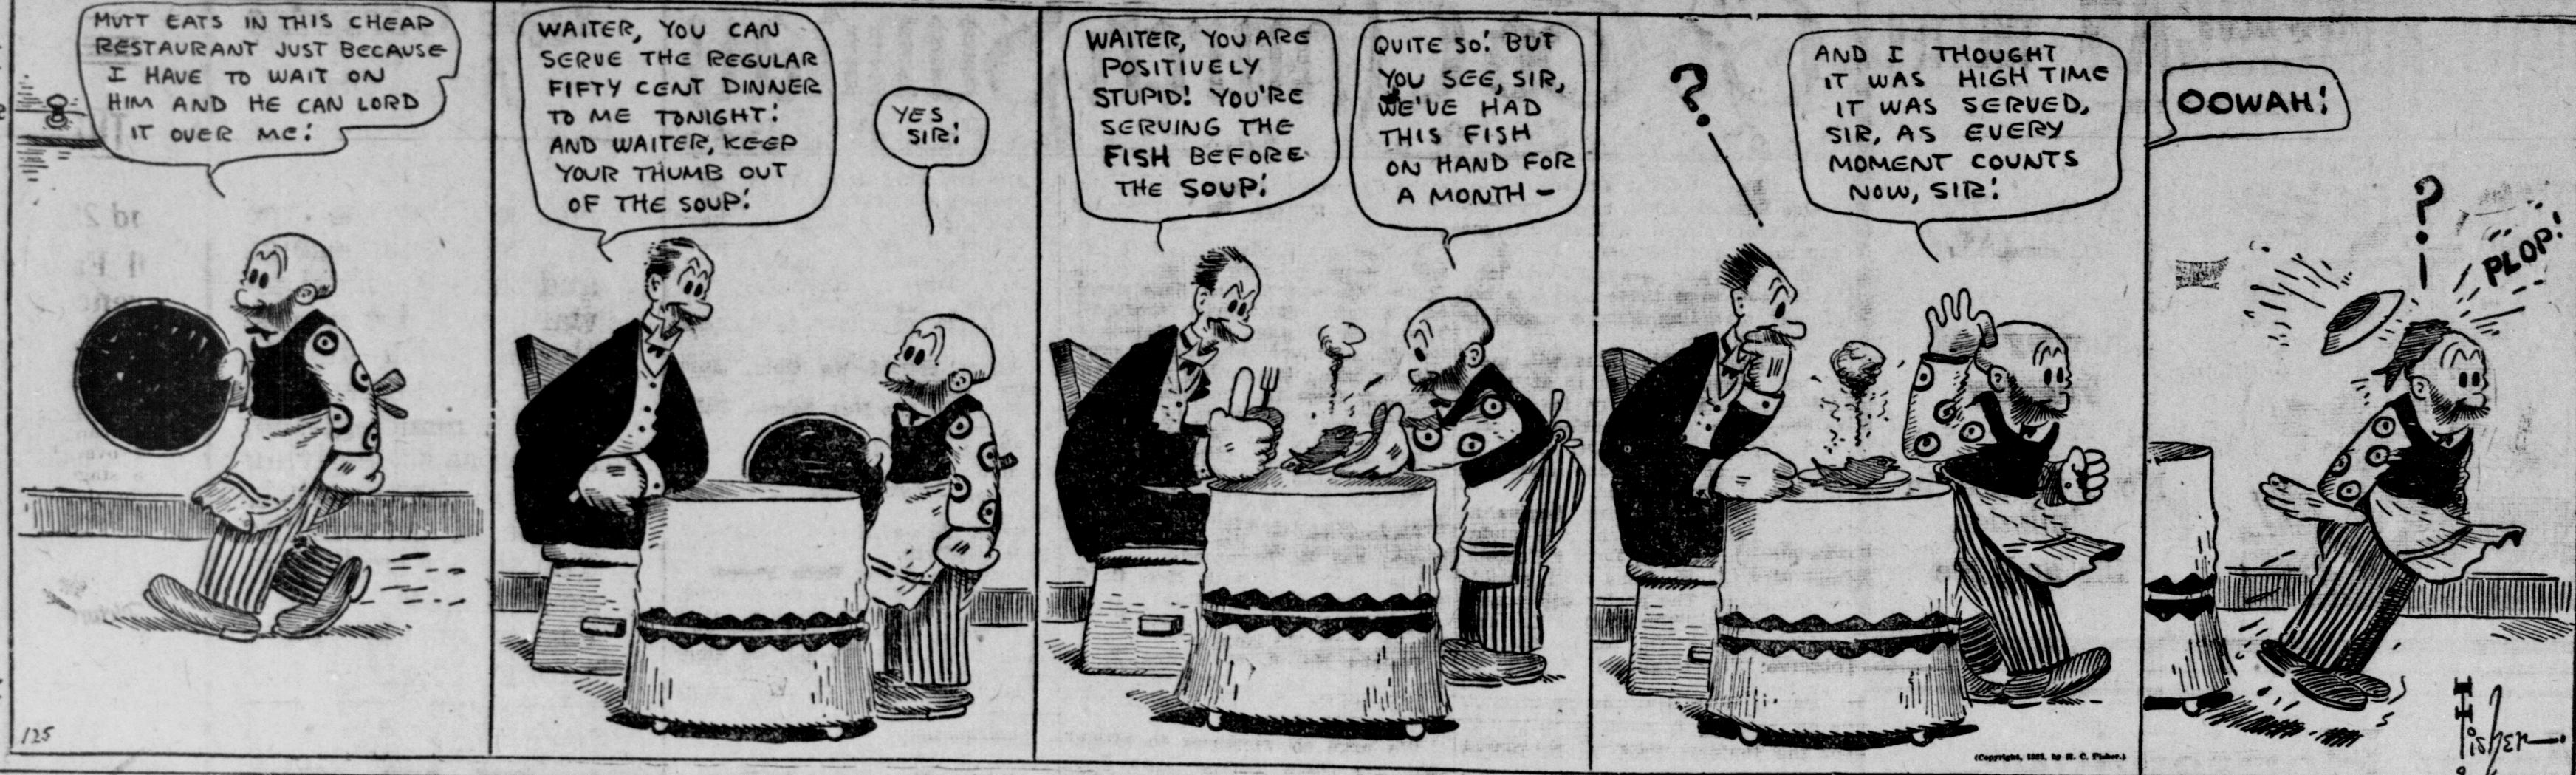

The largest bank vault in the world is being installed in the New York Federal Reserve bank.

Many Housewives--

are now experiencing the pleasant sensation "Doing their housework electrically", for they received something "Electrical" for Christmas.

We want everyone who was thus fortunately favored to bear in mind that the CONSUMERS APPLIANCE CO. stands ready at all times to render service and give any information upon the Electrical Appliances which you have. If there is something you don't understand, come down and let us explain.

We carry a complete line of Electrical Appliances at all times thru the year.

Go To Church Sunday

First Baptist Church
Our Sunday School begins promptly at 9:45. Mr. J. A. Ridling is the general superintendent. We have classes for all ages and cordially invite and urge those who are not already attending Sunday school to come with us.

The Men's Bible Class will meet at the McSwain Theater at 9:30. All men are cordially invited to attend. The class period closes promptly at 10:30. Dr. Laird is president of the class and Mr. Ellison is the teacher.

The morning worship begins at eleven o'clock. The choir is under the direction of Mr. Longly Fenten, and Mrs. J. H. Boud will preside at the piano. The pastor will preach on the subject, "The Seeking Savior." At the close of the service we will observe the memorial Supper of our Lord.

The B. Y. P. U. will all meet at 6:30. Mrs. A. H. Davis is in charge of the juniors; Prof. A. D. Bolton will be in charge of the Intermediates. The Blue and Gold will meet in the basement of the church and Mrs. Ray Backus will meet with them.

Senior No. 1, will meet in the main auditorium. They will render a good program as will all the other and the young people are invited to attend one of these organizations.

The evening service will begin at 7:30. We emphasize congregational singing at the evening service especially. The pastor will preach on the subject, "God's love and its gift." We will urge the unsaved to accept Christ the Lord. The general public is always welcome at any and all our services.

C. C. MORRIS,
Pastor.

OAK AVENUE BAPTIST CHURCH
We hope to have a full attendance at all services today. We especially urge the membership to be present. Let's begin the New Year right, by attending church.

We are now beginning our second year with Oak Avenue church, and glad to say that in the main, our work has been very pleasant among our people here and we have learned to love and appreciate them. We highly appreciate the fine way in which they have stood by us, and cooperated with us the past year, and we feel that we are getting things in fine shape for some real constructive work this year.

A cordial invitation is extended to everyone to all of our services. Sunday school begins promptly at 9:45 a. m. B. Y. P. Y. at 6:30 p. m. Preaching at 11:00 a. m. and 7:30 p. m. Theme for morning service, "God's Marching Orders to His Church." Theme for evening service, "The Appeal for a Divine Claim."

J. H. Page, Pastor.

NAZARENE CHURCH
Sunday school, 9:45 a. m. Preaching by the evangelist, W. E. Ellis at 11 a. m. Junior league at 4 p. m. Young People's society at 6 p. m. Preaching at 7 p. m. Bible class and chorus practice 7:30 p. m. Tuesday.

Teachers Missionary society at 1:30 p. m. Wednesday.

Prayer meeting at 7:30 p. m. Thursday.

Everybody cordially invited to attend these services.

P. E. McCain, pastor.

NAZARENE REVIVAL

The Nazarene revival is still in progress. Many souls have sought and found God during the soul-winning revival at the church. Seekers at the altar have been numerous at every service.

Reverend Ellis is doing a great service in the Kingdom and God is honoring his work in the salvation of many souls.

Come and hear him.

The Pastor.

FIRST CHRISTIAN CHURCH
"The Friendly Church"

216 S. Broadway
Sidney Smith said: "To do anything worth doing in the world we must not stand shivering on the brink and thinking of the danger, but jump in and scramble through as well as you can." We are entering upon New Year this morning and have adopted the above quotation as our slogan. Will you too?

Bible school, 9:45 a. m.
Morning worship, 11:00 a. m.
Junior C. E., 3:00 p. m.

Intermediate C. E. 6:30 p. m.

Senior C. E. 6:30 p. m.

Evening worship 7:30 p. m.
A hearty welcome and a worshipful helpful service await you at "the friendly church."

Special rally day, Jan. 21st. Get ready for the big rush.

F. G. Davis.

W. B. M. S.

The women's Baptist Missionary Society has just closed its January week of prayer for Foreign Missions.

Each day a very interesting program was given and the study of our missionaries, their work and their needs has given us a keen insight into the demands of the foreign nations upon us as a Christian nation.

God's hand is directing this worthy and noble work. It is only through prayer that we may approach Him and when we meet and pray daily no one can fail to feel His presence nor ignore the pressing demand to "Carry on His work."

The attendance at this meeting was good and yet we might easily have doubled the number had our women recognized the importance of the call to prayer.

We wish to thank each one who gave their time and efforts to

make our week of prayer for foreign missions a success. He will reward you.

Beginning Monday, March 5, we will observe a week of prayer for Home Missions. It has been decided to ask our district president, Mrs. Eula Grubbs, of Ardmore to be with us that week. We are praying for much inspiration and many blessings from that meeting.

The society will meet in districts next Monday for Bible study.

District No. 1, with Mrs. Sam McClure, 1113 S. Belmont.

District No. 2, with Mrs. D. C. Payne, 401 W. 17th.

District No. 3, with Mrs. E. K. Smith, 601 S. Townsend.

District No. 4, with Mrs. C. C. Morris, 411 S. Broadway.

District No. 5, with Mrs. S. H. Mount, 823 E. 10th.

District No. 6, with Mrs. J. C. Treadwell, 222 S. Constant.

District No. 7, with Mrs. Aubrey Kerr, 309 S. Francis.

We urge all members to attend that the Bible outline "The Ministry of Women" may be quickly finished and work in the new books for the year started.

The president with helpers will meet with the women of the West Side Baptist Mission at the Mission Monday afternoon at 3 o'clock for the purpose of organizing a circle of the W. B. M. S. there.

We need more workers and many women need to do more work for the Master. Come let us work together for the Lord.

Mrs. Harry E. Deering, Pres.

Presbyterian Christian Endeavor

Subject: Our guide board.

Scripture: Ps. 1:1-6.

Sentence prayers.

Name some of the temptations in the way of righteousness, Grace Mooney.

What are the rewards of righteousness?, Kathryn Welzink.

What do you think is the most important of the lessons taught by the First Psalm? Charley Gregg.

In what respect are the un-God-like chaff? Eddie Mae Horn.

What is your hope for this society for the coming year? Claude Smith.

What is your chief purpose, personally, for 1923?, Ruth Bolen.

BOSTON Experiences Shipping Boom; Now Greatest Since War

(By the Associated Press)

BOSTON, Jan. 6.—The greatest shipping boom since the days of the world war is now at its height at this port. Work for 2,000 longshoremen can be had at the transatlantic terminals, it is said. At the rate of 70 cents an hour for day work and \$1.05 for night work, the pay envelopes of those now on the job are well filled.

Nearly two hundred of the quotations used have come either from the pen of Bishop Lambuth or Miss Belle H. Bennett, the remaining number were utterances from some other of our own great missionary leaders.

TURKS LEAVE CONFERENCE IN TUMULT

NO RELIEF SEEN IN REPARATION ROW IN EUROPE

Washington Officials Show Concern Over Trend of Affairs Abroad.

U. S. OFFERS HELP

Germany Granted Permission To Present Pleas Before French Plan Adopted.

(By the Associated Press)

WASHINGTON, Jan. 6.—The possibility of any development abroad to change the policy of France and bring American aid into the reparation breach in Europe appeared tonight to be fading hour by hour.

There is reason to believe that the Washington government not only sees no further opportunity at this time to suggest a way to Franco-British reconciliation but also lacks any intimation that its good offers will be sought from across the Atlantic at least in advance of an actual test of the French theories on reparations.

Once the French plan has been tried and its results demonstrated the situation with respects to American aid may change, but there is no doubt that American official opinion is gravely concerned lest political chaos and a complete economic breakdown come in Germany before that point has been reached.

The official attitude in Washington is still that of sympathetic friendly to all parties to the crisis and with American good offices and economic strength available at any time to allied leaders if they can find a way of reaching out for American helpfulness. It is certain that no move will be made here prematurely or in a way that might create a hostile impression abroad to embarrass a later tender of American help. The complete official silence at this time in Washington probably is significant of a desire to keep the international air clear of misunderstanding and the way always open for French or British initiative to seek the aid of the United States.

PARIS, Jan. 6.—Germany will be given a hearing by the reparations commission before any action is taken on the French proposition to have her declared in default on coal deliveries, the commission decided today.

When the question came before the commission, it approved the German request for a hearing.

Berlin was immediately notified and asked to send experts so they can be heard by the commission next Monday.

Sir John Bradbury, the British member, attended the session. There was no discussion of the merits of the case. The Germans are entitled, under the terms of the Versailles treaty, to present their argument, and Louis Barthou of France, the proponent of the default measure, offered no objection to granting the hearing.

(By the Associated Press)

NEW YORK, Jan. 6.—President Harding is deeply concerned over the grave turn of events in Europe resulting from the collapse of the conference of Peacemakers in Paris. Senator-elect Simon D. Paton of Ohio, told the national republican club today at a discussion of the present foreign policy,

His address was interpreted by many as an intimate revelation of the administration's position in the critical period particularly an assurance that "we should hasten the call of an economic conference."

Another Negro is Slain in Florida Race Riot Clash

(By the Associated Press)

ROSEWOOD, Fla., Jan. 6.—A new grave was dug in the negro cemetery at Sumner near here late today and in it Sheriff Walter placed the body of James Carrier, whose death at the hands of several white men today was the scene of the clash between the races at Rosewood, Thursday night.

Carrier was shot to death while standing over the graves of the four other negroes, who fell in the fighting that followed an attempt of a crowd of white men to enter a negro house in search of Jessie Hunter wanted for alleged implication in an attack on a white girl at Sumner.

Meanwhile Hunter, search for whom has resulted in seven deaths, is still at large.

Jui Jitsu Painful--Granted Divorce

Jake Hamon's Widow Objects to Tactics of Athletic Husband; Claims Rohrer Beat Her When She Asked for \$18.

CHICAGO, Jan. 6.—Mrs. Georgia Hamon Rohrer, widow of Jake L. Hamon wealthy Oklahoma oil man and political power, who was slain by Clara Smith Hamon, today was granted a divorce from William L. Rohrer, Chicago clubman and acquaintance.

Mrs. Rohrer in her petition for the decree charged cruelty, alleging that her husband frequently had made her the object of his skillful jujitsu executions "causing great pain annoyance, discomfiture and physical suffering.

No alimony was sought and

the settlement is said to have involved a renunciation by each party of all interest in the estate of the other.

Mrs. Rohrer again will assume the name of Hamon.

The Hamon estate was estimated by her counsel during the hearing at two million dollars.

Mrs. Rohrer's testimony was brief being confined for the most part to the cruelty charge. She said she lived in fear of her husband.

Jake Hamon, Jr., of Ardmore Bell Hamon, children of Mrs. Rohrer both testified in the behalf of their mother.

No alimony was sought and

the Rohrers were married here in December, 1921, about a year after the death of Jake Hamon, sr., in Ardmore.

"On December 3, 1922, I asked him for some spending money," testified Mrs. Rohrer today under questioning of her attorney.

He got angry and told me he did not have any."

"Then he grasped my hand and applied the jui-jitsu causing me great pain and suffering," said Mrs. Rohrer.

Upon questioning by counsel Mrs. Rohrer told the court she had asked the broker for \$18 and he had refused.

STORM BREWING IN STATE FIGHT

Antis Gathering Forces in Reported Friendship Award of Printing

(By the Associated Press)

OKLAHOMA CITY, Jan. 6.—Straight out right to test the power of the non-labor reconstruction league in the lower house of the legislature promised tonight to break out Monday when the report of the house committee on printing is taken up for consideration.

Reports leaked out during the day that by a majority vote the committee gave all printing awards to the Oklahoma Leader socialist labor daily here and organ of the reconstruction league. Charges were made that the award was voted without consideration of bids from other concerns.

Several house members asserted that the proposition had been jammed through the committee by outside dictation and they declared they were ready to go on the floor of the house Monday and give the matter a thorough airing.

Two members of the committee were elected with League endorsement and two others are said to have maintained a close alliance with the reconstructionists.

John F. Garnett and Marshall Slaton, members of the committee were selected from the Non-Dictate Young Independent group. Leslie E. Shuster, minority floor leader is the republican member. It was intimated that the latter three would present minority report Monday and that the fight for its adoption would be led by W. E. Disney of Muskogee who has already headed two successful assaults in the house against the administration.

Gigantic Exchange in Movie Industry Reported on Foot

ATLANTA, Ga., Jan. 6.—S. A. Lynch has reached an agreement with the Famous Players-Lasky corporation to surrender control of his holdings in the motion picture business in the south, according to information received here tonight from New York.

The deal involves an exchange of \$5,700,000 for which Lynch will relinquish his control of southern enterprises incorporated and subsidiary corporations represented by 200 motion picture theaters in the south and five paramona film exchanges located in Atlanta, Dallas, New Orleans, Charlotte and Oklahoma City.

His address was interpreted by many as an intimate revelation of the administration's position in the critical period particularly an assurance that "we should hasten the call of an economic conference."

(By the Associated Press)

Carrier was shot to death while standing over the graves of the four other negroes, who fell in the fighting that followed an attempt of a crowd of white men to enter a negro house in search of Jessie Hunter wanted for alleged implication in an attack on a white girl at Sumner.

Meanwhile Hunter, search for whom has resulted in seven deaths, is still at large.

Masonic Club is Organized Among College Students

A Masonic club, composed of student and faculty members, was organized at the East Central college Friday night for the purpose of studying historic facts concerning Masonry.

A. B. Morrison was elected president of the club and A. L. Huthaway was named secretary-treasurer at the Friday night meetings.

Regular meetings will follow the initial conference of the college Masons.

The club will discuss the various historic points of Masonry outside the various ritual of the order.

MARION AGAIN SCENE OF COAL MINE LABOR

MARION, Ill., Jan. 6.—An echo of the killing of twenty-three men in the Herrin riots came today when the first coal mine since the tragedy last June poured down the red clay embankment into waiting cars.

Amid charred fragments of burned mine office, and a sight of the twisted, rust covered remains of three switch engines, wrecked by the mob, groups of miners went about their tasks.

From between two great mounds of earth a monster steam shovel used to uncover the coal poured tons of red clay upon the spot where the non-union miners had surrendered on June 22 and from which twenty of them had been led forth to their deaths. After months consumed in repair, the wreckage wrought during the riots in the mine, then the property of the company, again, is in full operation with little remaining to tell of the tragedy of which it had been the scene.

MANY TO ATTEND BARBECUE PARTY

Cullins Receives Telegram of Appreciation; Ada Band to be on Hand.

T. O. Cullins appears in a new role.

Saturday afternoon he dashed into the news office flashing a copy of a telegram. It read:

"This is to thank you for the drove of 150 possums that you sent from Ada, which reached us last night."

"Signed Dan Lackey."

Mr. Cullins accused H. W. Wells and Andy Chapman of being parties to the first part in the affair. He said that people who have wondered in the past few days what he was doing would now know that his time had been devoted to the possums.

Mr. Cullins has been affiliated with a number of undertakings of such character and his friends are not surprised to learn of his latest venture. He said he regretted very much that he would be unable to attend the barbecue.

So far as can be learned there will a large delegation of Ada citizens to attend the barbecue to be given in honor of Governor-elect J. C. Walton at Oklahoma City next Monday and Tuesday.

East Central college is sending a thirty piece band, uniformed to play in the parade. Two national guard companies were to remain but will be forced to remain at the station in Ada because of later orders.

It was thought for a while that a special train would be secured to carry Ada people but those most interested are of the opinion that the regular train facilities will be sufficient. Trains are to carry extra coaches during the time of the inaugural, reports indicated. Reduced fares have been granted to all going to the barbecue.

(By the Associated Press)

NEGO CONVICTED FOR MURDER OF WOMAN

NEWARK, N. J., Jan. 6.—William Battles, 19 year old negro, tonight was convicted of first degree murder for the slaying of Mrs. Charles F. Brigham, whose mutilated body was found stuffed in a preserve closet in the cellar of her home in Orange, ten days ago.

Battles will be sentenced Monday.

GRAND JURY MAY PROBE BANK ROW

Deen Indicted on Charges of Violating the Harrison Narcotic Act.

(By the Associated Press)

MUSKOGEE, Jan. 6.—The Bank of Commerce collapsed at Okmulgee may find its way into the federal court if the investigation now being conducted by the federal grand jury yields sufficient evidence to warrant indictments.

The grand jury has made certain investigations regarding the bank and will investigate further when it reconvenes in March, said U. S. district attorney Lee today.

The grand jury was instructed by Federal Judge R. L. Williams when it convened that it had the power to investigate bank members of the federal reserve system. A true bill was returned against Dr. J. A. Deen of Ada, charging him with conspiracy to violate the Harrison narcotic act.

Indictment which handled him in connection with the same charge was Jess Hays also of Ada.

It is charged that Deen conspired to supply Hays with drugs who was in turn to peddle it through various channels. Deen is prominent in politics in Pontotoc county. Two indictments were also returned against bank officials the names of whom were kept secret. It is understood one of the officials will appear before the U. S. commissioner here Monday to make bond.

Dr. David, who presented the report of the autopsy conducted by himself and John A. Langford, his associate, brought his testimony to confusion and a climax by producing bones taken from the bodies of the two men showing fractures on the arms and legs almost equal distinct—in each instance in three places—and producing portions of the crushed skull and other bones.

Dr. David declared that the fracture and injuries to the body could not have been produced by dynamite which preceded the finding of the bodies on the surface of Lake La Fourche in the northeast portion of Merhouse parish two weeks ago—four months after the two men had been kidnapped by a masked band.

(By the Associated Press)

Defense Attorneys Hope to Conclude Herrin Riot Case

MARION, Ill., Jan. 6.—Attorneys for the defense, after introducing a score of witnesses to prove alibis for the five defendants in the Herrin riot trial, expressed confidence tonight that they would close their case before the end of next week.

In the seven days of court session, since the state rested after putting 39 witnesses on the stand, more than seventy-five witnesses have been called by the defense to carry out its announced intention of seeking to prove "justification" and "alibis" for all the accused. The first testimony was designed to support the contention that acts of aggression on the part of the armed guards at the mine were responsible for the riots that culminated in the killing of three union miners, and twenty non-union workers on June 21 and 22.

Raines had been formally charged with murder in connection with the Sapulpa ambuscade.

Raines was arrested here last night and held in the city jail being secretly recoved this morning in the hope of getting him to Sapulpa without the public learning of the arrest. At Beggs he leaped from the automobile and was felled by a Sapulpa officer's bullet.

(By the Associated Press)

CO-OPERATIVE MARKETING OUTSTANDING 1923 PROBLEM

(By the Associated Press)

CHICAGO, Jan. 6.—Cooperative marketing will dominate the 1923 program of the American Farm Bureau Federation, according to O. E. Bradford, president-elect. The efforts of the entire organization will center around this work.

The Farm Bureau must function as a service organization," said Mr. Bradford, "and the biggest perfecting which can be rendered is perfecting cooperative marketing. A new director and a staff of commodity specialists will be appointed."

(By the Associated Press)

CONFEDERATE VETERANS TO MEET SUNDAY AFTERNOON

Wm. L. Byrd Camp, U. V. C. will hold its regular monthly meeting at the city hall at 2 o'clock. The annual election of officers will take place at this meeting. A full attendance is urged by Capt. Crow, the commander of the camp.

A feature of the meeting will be an appropriate reading by Miss Dixie Lee Russell.

VICTIMS SUFFER TORTURE CLAIMS DOCTOR WITNESS

Pathologist Declares that Watt and Daniels Subjected to Unusual Violence.

(CLIMAX IN NOTED CASE)

Witness Declares Bones of the Dead Men's Bodies Bare Points.

(By the Associated Press)

BASTROP, La., Jan. 6.—Watt Daniels and Fletcher Richards were put to death on a rack of torture according to testimony today of pathologists who had examined their crushed and mutilated bodies after the bodies were recovered from a lake near here. They were victims of black hooded band, it was testified by their companions who escaped with floggings.

Exhibiting crushed and broken bones as possible evidence the pathologists testified that scientific examination of the bodies of the men showed that they had been tortured on a device "especially constructed for inflicting punishment."

That the men, who halted the automobile party of which Daniels and Richards were members wore black hoods, was testified to by witnesses who told the wrath of the raiders but were allowed to

MEMBERSHIP INCREASED IN STATE CONFERENCE

ATHLETICS HERE PAY FINANCIALLY

Graduating Letter Men to Receive Sweaters for Grid Honor.

For the first time in a number of years athletics at Ada high school proved a paying proposition. This was the announcement made today by Prof. W. A. Hill, who said the collection of insurance on the Ada-Atoka game put the team ahead financially.

A ruling recently by the board of directors of the school makes it possible for seniors who receive letters in football to receive sweaters, therefore the nine members of the team who will graduate in the spring will receive their sweaters.

Frank Potts, captain, Laran Molloy, Turner King, Jackie Wright, Charley Gregg, Jesse Carr, William Smith, Paul Rayburn, Frank Morris will receive sweaters as soon as they can be ordered. All men named were granted letters by the school. Frank Potts also was voted the complimentary sweater given by the Model Clodiers.

The team completed a successful season and brought many honors to the school. A defeat at Pauls Valley spoiled an all victorious season, following the forfeit of the Ardmore game.

Vester Willoughby, captain for 1923, Joe Hargis, Drew Page, Joe Baker, Cotton Williams, Amherth Nettles, Burkhardt and several other men are expected to form the team for 1923.

Under the board ruling only seniors can receive sweaters from the school. The men who made letters this year but did not graduate will receive sweaters next year provided they make the team again and graduate, it was explained. This ruling was made in order to keep the players interested in finishing high school and not stopping after receiving their letter and sweater in the sophomore or junior year as is the case in many larger schools.

Property owned by the Salvation Army in this country has a market value of \$115,325,630.82.

Know your car and treat it right.

By AGOLPH RUGG

The type of these lines has been seen in the call of the golf pasture all this week the weather having had such a good disposition. But the only way that the tired business man can get out to enjoy the ancient and honorable pastime of the kings is to make a daylight savin' law of his own and grab his clubs and go on out to the course about 4:30 p. m. in the afternoon. They ain't no chance for any relief to be had along this line from law during the Hardin administration. They would not pass a daylight savin' law, even us golfers, just because the democrats did pass one. Guess it will take another war.

Us golfers has a hard time keepin' in condition durin' the short winter days. If it was not for the long winter night and what is possible to be done durin' them, the average man would come out on the course in the spring and waste half of the season gettin' in form again. A occasional game of bridge will keep his mind alert so as he can count his strokes in the spring again if he aint too rotten, but the real way to keep in prime condition durin' the winter months is to become a workin' fan of the modern dance. Football is as tame a game as rook besides the modern dance, baseball-cint never had half of the thrill and science, and prize fightin' is a safe, sane and perfectly legal pastime. Somebody ought to invent a insurance polly coverin' accident liability at dances because it is the opinion of the type of these lines that they is going to be some body hurt if the sport makes much more of its so called progress. If you aint been to one of these festivities in the last few years you never could tell when you got there. What the typer of these lines is tryin' to impress on your minds is that it takes regular lion-fightin' courage to even get out on the floor.

The way this dance game is played now, they all take sides, the men on one team and the girls on the other team. The object of the game seems to be for the men to do somethin' that their partners can't do, but the box score shows they aint won a game yet. The girls knows their marbles, too. Most ever dance now days has several dozen collusions that would have been called serious on a railroad but all they does is make some small remark to their partners about some guy and his opponent being awkward and start off again. The music dont mean nothin' now days. All it seems to be for is to liven up the party a little, for they aint none of the players that keeps time to it. A centipede coldn't.

Yes, if a guy could ever get into a physical condition so as to have endurance enough to ever make it through the end if the first dance, he might come out to the course for the first round in the spring and do it in par. But the typer of these lines aint advisin' anybody to top the modern dance that aint a powerful athlete.

GUARDS AND HI SCHOOL WINNERS

Three Teams are Tied for the

Lead up to Saturday
Night's Games.

In two thrilling games of basket-

ball at the armory Saturday night the high school and guardsmen emerged victors. Guardsmen de-

feated the cement plant 13 to 9,

and the high school defeated the

Cubs 13 to 12. It was the hardest

fought game of the league sea-

son.

This gives the high school claim to more recognition from its league opponents and places the Cubs fur-

ther in the lead.

Three teams had tied for first place up to the games Saturday night. Two teams were tied for the cellar position and the Cubs was then leading by the margin of one game. Results tonight placed a considerble change in the team stand-

ing.

The three leading teams have two more games to play the first half and the other squads will have three games remaining. Due to conflict and interruptions no fair estimate on how the first half will end can be made.

Games will be played on regular schedule following the games Saturday night each Tuesday and Saturday night being used for a double header. All games will be played in the national guard ar-

mory on North Broadway.

Amateur Athletic Union Awards New Records in Sports

(By the Associated Press)

NEW YORK, Jan. 6.—The amateur athletic union which through Louis Goldsmith, chairman of the rules committee, today approved 51 record breaking performances, 47

in swimming and 4 in track and

field events made last year. Thirty-

three of these marks will go down

as American records, while 18 will

be registered as noteworthy perfor-

mances, a category including feats

ADA HIGH GIVEN ARDMORE GAME

Oklahoma Athletic Control Board Hands Victory to Local Team.

Ada high school took over the Ada-Ardmore football game on a forfeit, according to the ruling of the board of control of the Oklahoma high school athletic association. Wintukna high school was suspended from the board and all names forfeited.

Ada played at Ardmore on Friday, October 26, losing the game 30 to 6. The score made by Ada was the first scored against Ardmore until she was defeated 7 to 6 at the hands of Chickasha when the season closed.

Andy Atherton, the man named by the board of control as being ineligible and thereby causing the forfeit, played against Ada in that game. He appeared in the line up as left half back and starred, making one of the Ardmore touchdowns.

The line-up for the game was as follows: Hewitt and M. Brown, ends; Brown and Hamilton, tackles; Gibson and Tate, guards; McKey, center; Holt, quarterback; Anderson and Willingham, half backs; E. Holt, full back.

Ada used the regular line-up with the exception of Jackie Wright who was playing center of Laran Molloy. It was due to the inexperience of Wright at center that gave the Ardmore team an advantage great enough to win, fans say.

As matters now stands, Ada gets the game by a 1 to 0 score. This gives the local team a season with eight victories and one defeat.

Ardmore was severely reprimanded by the board of control. Coach Cox was quoted on returning to Ada as saying that Ardmore fans and team gave his men the dirtiest deal any team had ever attempted against Ada. All teams opposing Ardmore this year protested against the players and against the treatment. Chickasha entered a protest against the exhibitions of the side lines, which also drew a reprimand from the board of control.

Charges against a number of other schools were either dropped or found to be insufficient. Ada high school's football record for the year now stands:

Ada 14, Okmulgee 0.

Ada 18, Wintukna 6.

Ada 10, Purcell 6.

Ada 1, Ardmore 0.

Ada 33, McAlester 7.

Ada 34, Henryetta 3.

Ada 3, Pauls Valley 6.

Ada 43, Wilson 0.

Ada 19, Atoka 0.

As matters now stands, Ada gets the game by a 1 to 0 score. This gives the local team a season with eight victories and one defeat.

Cameron to his peril before it was too late. Desperate fighting saved him from being hurled to the ground and stamped and crushed. Warren seemed a maddened giant. There was a reeling, swaying, wrestling struggle before the elder man began to weaken. Then Cameron, buffeted, bloody, half-stunned, panted for speech.

"Warren—hold on! Give me—a minute. I married Nell. Didn't you know that? . . . I saved the child."

Cameron felt the shock that vibrated through Warren. He repeated the words again and again. As if compelled by some irresistible power, Warren released Cameron, and, staggering back, stood with uplifted, shaking hands. In his face was a horrible darkness.

"Warren! Wait—listen!" panted Cameron. "I've got that marriage

pace of his elder comrade. But now he felt that he was losing something of his instinctive and passionate zeal to get out of the desert. The thought of water came to occupy his mind. He began to imagine that his last little store of water did not appreciably diminish. He knew he was not quite right in his mind regarding water; nevertheless, he felt it to be of fact that fancy, and he began to ponder.

When next they rested he pretended to be in a kind of stupor; but he covertly watched Warren. The man appeared far gone, yet he had cunning. He cautiously took up Cameron's canteen and poured water into it from his own.

This troubled Cameron. He reflected and concluded that he had been unwise not to expect this very thing. Then, as his comrade dropped into weary rest, he lifted both canteens. If there were any water in Warren's, it was only very little. Both men had been enduring the terrible desert thirst, concealing it, each giving his water to the other, and the sacrifice had been useless.

Instead of ministering to the parched throats of one or both, the water had evaporated. When Cameron made sure of this, he took one more drink, the last, and poured the little water left into Warren's canteen. He threw his own away.

Soon afterward Warren discovered the loss.

"Where's your canteen?" he asked. "The heat was getting my water, so I drank what was left."

"My son!" said Warren.

The day opened for them in a red and green hell of rock and cactus. Like a flame the sun searched and peeled their faces. Warren went blind from the glare, and Cameron had to lead him. At last Warren plumped down, exhausted, in the shade of a ledge.

Cameron rested and waited, hopeless, with hot, weary eyes gazing down from their height where he sat.

Movement on the part of Warren attracted his attention. Evidently the old prospector had recovered his sight and some of his strength. For he had arisen, and now began to walk along the arroyo bed with his forked peach branch held before him. He had clung to that precious bit of wood. Warren, however, stepped in a deep pit, and cutting his canteen in half, began to use one side of it as a scoop. He scooped out a wide hollow, so wide that Cameron was certain he had gone crazy. Cameron gently urged him to stop, and then firmly tried to make him. But these efforts were futile. Warren worked with slow, ceaseless, methodical movement. He toiled for what seemed hours. Cameron, seeing the darkening, dampening sand, realized a wonderful possibility of water, and he plunged into the pit with the other half of the canteen. Then both men toiled round and round the wide hole, down deeper and deeper. The sand grew moist, then wet. At the bottom of the deep pit the sand coarsened, gave place to gravel. Finally water welled in a stronger volume than Cameron ever remembered finding on the desert.

The finding of water revived Cameron's flagging hopes. But they were short-lived. Warren had spent himself utterly.

"I'm done. Don't hinder," he whispered. "My son, go—go."

Then he fell. Cameron dragged him out of the sand pit to a sheltered place under the ledge. While sitting beside the failing man Cameron discovered painted images on the wall. Often in the desert he had found these evidences of a prehistoric people.

Then, from long habit, he picked up a piece of rock and examined it. Its weight made him closely scrutinize it. The color was a peculiar black. He scraped through the black rust, to find a piece of gold. Around him lay scattered heaps of black pebbles and bits of black, weathered rock and

bits of broken ledge, and they showed gold.

"Warren! Look! See it! Feel it! Gold!"

The burning day found them in an interminably wide plain, where there was no shelter from the fierce sun. Mountain peaks loomed on all sides, some near, others distant; and one, a blue spur, splitting the glaring sky far to the north. Cameron thought he recognized as a landmark. The ascent toward it was heart-breaking, not in steepness, but in its long-and-longue monotonous rise. Cameron knew there was only one hope—to make the water hold out and never stop to rest. Warren began to weaken. Often he had to halt.

The storm finally blew itself out. It left the prospectors heavy and stupid for want of sleep. Their burros had wandered away, or had been buried in the sand. Far as eye could reach the desert had marvelously changed; it was now a rippling sea of sand dunes. Away to the north rose the peak that was their only guiding mark. They headed toward it, carrying a shovel and part of their packs.

At noon the peak vanished in the shimmering glare of the desert. The prospectors pushed on, guided by the sun. In every wash they tried for water. With the forked peach branch in his hands Warren always succeeded in locating water. They dug, but it lay too deep. At length, spent and sore, they fell and slept through that night and part of the next day. Then they succeeded in getting water, and quenched their thirst, and filled the canteens, and cooked a meal.

"Warren, I'm the man you're hunting. I'm Burton. I was Nell's lover!"

The old man rose and towered over Cameron, and then plunged down upon him, and clutched his throat with terrible, stifling hands. The harsh contact, the pain awakened

Cameron met the gaze unflinchingly, and again began to speak:

"You know, of course, how men out here sometimes lose old names, old identities. It won't surprise you much to learn my name isn't really Cameron, as I once told you."

Warren stiffened upright. It seemed that there might have been a blank, a suspension between his grave interest and some strange mood to come.

Cameron felt his heart bulge and contract in his breast; all his body grew cold; and it took tremendous effort for him to make his lips form words.

ADA BANKS IN FINE CONDITION

That money matters in Pontotoc county are considerably easier than they were a year ago is evidenced by a comparison of the statements of the banks of Ada with those of a year ago. Although the cotton crop did not put all of the farmers out of debt, it did considerable and with other sources of income added, there is more money in the county than for a long time. A year ago the bank deposits of Ada totaled a little more than \$2,650,000; now they are approximately \$3,100,000, an increase of about \$450,000. On the other hand the available cash balances in the banks have increased \$880,000, proving that they have greatly strengthened themselves during the twelve months period just closed.

Only a generation or two ago disease was supposed to be sent by Providence as a scourge to the individual or community. With the growth of knowledge of the laws of nature came the advance in ways and means of combatting these unseen enemies of humanity and the realization that in this matter, as in most others, the trouble lay with man himself and not with Providence. When the medical profession taught the world some principles of sanitation and common sense rules of living, the death rate began to fall and it is going lower year by year. Diseases that baffled mankind a half century ago are now easily controlled and it is the dream of the most optimistic that in time all diseases will be exceedingly rare. The great aim is to prevent disease in the first place.

Every town has a man who knows it all. If he is at a ball game he knows exactly when the referee is wrong and can tell you every time a player makes a mistake or pulls a "boner." If he is at a whist party he will tell you how you could have won another trick by playing differently. In short, he knows it all and knows it all the time. It doesn't pay to argue with him. You can't knock any conceit out of him and you will lose your temper. Don't argue with a man who knows it all. The only possible thing you can do is to try to tell a bigger lie than he does, and then you want to tell it last.—Atoka Citizen-Democrat.

It is reported that the coal operators and miners are unable to agree on a basis for work after the expiration of the present contract next April. Reports are also heard of more roads and industries turning to oil for a reliable fuel supply. This means less coal needed. If the owners and miners keep up their chronic state of disagreement a few years more, there will be little left of the industry. New oil fields are being brought in all the time and with a plentiful supply of this valuable fuel large consumers will not care whether a coal strike is on or off.

Senator Reed of Missouri has introduced a resolution on calling for the withdrawal of the American troops now stationed in Germany. During his campaign Harding and his henchmen denounced Wilson for keeping these soldiers over there and promised to bring them home without delay, in the event of Harding's election. He has been in office two years and the boys are still on the Rhine. Evidently that talk was made merely to catch votes, since Harding's action in leaving them over there indicates that he knows that Wilson was right.

Ever since the Russian revolution stories have been afloat to the effect that millions of dollars worth of jewels belonging to the royal family had been smuggled into the United States. The latest is to the effect that they were concealed in the coffin of an American seaman whose body was shipped to New York and buried. The grave has not been examined so the public will just have to guess at the truth of the story until an investigation is made. However, the chances are that like all others, this story will be found to be pure bunk.

An exchange sarcastically remarks that the only kind of needless most girls of today know anything about is the phonograph needle. That is a rather mean thrust, but it reminds us that during the past half-century inventions have done much to lighten the labor of American women. The sewing machine is one of these. Then comes the improved cooking stoves, electric washing machines, irons and such household helps, and greatest of all, of course, is the factory loom which removed the necessity of home weaving. Besides that ready-made clothing is a great help. Certainly women have not been neglected when it comes to inventions to lighten their work.

It is some tumble from the world's champion prize fighter to a peddler of shoe paste, but that is the present state of Siki, the victor over Carpentier. Siki was recently suspended from the realm of pugilism for a period of nine months just about the time he had blown in all his winnings in the Carpentier battle, according to reports from Paris. His eating had to go on, however, so he turned to his means of supplying his pantry. That must have been a severe test of nerve, but he is apparently standing the test.

French Government Finds Recovering From War Costly

(By the Associated Press)
PARIS.—The French budget for 1923, now undergoing discussion in the Chamber of Deputies, shows that it costs a great deal of money not only to make war, but also to wind up a war.

Of the total appropriations of 23 billion francs asked for by the government, eight hundred million are to defray expenses due to hostilities. This amount includes no pensions or outlay for reconstruction. The biggest item is 360 million francs for the maintenance of French troops in the Near East. It costs France 56 million francs a year to share in the occupation of Constantinople, and the troops located in the Sare district cost 24 million a year.

Little odds and ends of expense, such as decorations of persons and towns for valor during the war, the expenses of missions sent abroad etc. reach the respectable figure of 146 million francs.

Sport Fans Now Look Forward to Ring Bout Here

Sport fans look forward to the DeLaney-Cooper 10 round ring bout here January 18 at the Armory hall as the opening of the fight season.

The bout, given by the Elks Lodge under the auspices of the Norman Howard Post, American Legion, will be one of the hardest fought fights staged in Ada for some time, sport enthusiasts believe.

Jimmie DeLaney of Shawnee and Archie Cooper of Ada will answer the gong in their third encounter, the pair having met here in one of theights.

DeLaney is at present training at Morrison but will take up training quarters here early next week.

One Conviction Handed Down in Court Week Here

One conviction, one hung jury and a remaining list of acquittals resulted in the jury count court session with Judge Tal Crawford on the bench during the past week.

J. D. Humes, charged with running an immoral rooming house, the Central rooms, was fined \$100 by a jury late Friday afternoon.

Several cases were transferred to Roff and Allen.

Booze cases occupied a greater part of the docket list in the hearing of the past week.

Civil matters will be taken up before the court next week with a heavy docket facing Judge Crawford.

Other Agents for Auto License Tags Have Offices Here

In a front page article appearing in News columns of Friday it was erroneously stated that W. D. Kennedy, with headquarters at the Ada Auto Tops Works, was the only agent in the city who kept a bona fide record of auto license applications.

Mrs. M. Bills, with headquarters in the Blanks office over the First National Bank building, as well as Justice of Peace Joseph Anderson, are agents to receive auto license applications.

Mrs. Bills has a letter from M. M. Henderson, state highway commissioner, authorizing her to accept applications and keep a record of the license.

GOLF FEVER PLACES GRIP ON BRITISHERS

(By the Associated Press)
LONDON.—Britain is in the grip of the golf fever if the number of new courses being constructed can be taken as an indication. There are at least thirty courses now being built, the largest number laid out in a single year since 1902 when the rubber-coated ball revolutionized the game. The courses are costing on an average of \$50,000 each.

An innovation is found in courses especially designed for the use of elderly people and beginners, which are being installed by many of the English clubs.

ELKS NOT TO SUFFER PRIVATION FROM WINTER

(By the Associated Press)
YELLOWSTONE PARK, Jan. 6.—Elk in Yellowstone National Park are not to suffer from hunger this winter, announces Horace M. Albright, Park Superintendent. Earlier in the fall there were some misgivings as to the food supply for the park's animals.

"We do not believe there will be any loss from starvation this winter," says Mr. Albright. "We have more than 1,200 tons of hay available on our ranches for buffalo and elk, and the range above the 5,500 foot level is good for grazing. Below that elevation, the growth is stunted but better than in the winter of 1919-20, when we lost so many elk."

LONDON.—London's electric lighting bill will be cut by nearly \$50,000 yearly it is believed, when project now in course of completion is made effective.

This provides for the uniting of all electrical supply companies in London and the suburbs, covering an area of 1660 square miles and affecting a population of close on eight million people. There will be only twelve generating stations in the whole area, against about forty now in existence, and the saving will allow of a reduction in cost of something like 15 per cent per unit.

Announcing--

Smith-Cole Inc.

the newest name in Ada's business roster

But only the name is new. SMITH-COLE Inc., composed of Bart Smith and Joe Cole, who for the past few years have been members of the firm of SIMPSON'S INC. have now purchased the CLOTHING AND SHOE departments of SIMPSON'S, Inc.

The business will be continued at the same location, 117 West Main, with the same lines that have heretofore been carried in these departments of SIMPSON'S INC. The same policies which have contributed so materially to the success of the old organization will be continued.

The best wishes and the entire good will of SMITH-COLE INC., is extended to the firm of SIMPSON'S with whom we were associated for years and by whom we shall continue to make our business residence.

In the future the entire efforts of SMITH-COLE INC. will be directed toward giving Ada and Pontotoc County one of the best and most carefully selected stocks of Men's Furnishings and Shoes for the whole family that this community has ever seen. Remember our shoe stock contains Men's, Women's and children's shoes.

Smith-Cole Inc.

Announcement--

We Take Pleasure in Announcing to Our Customers and the Public in General That

SIMPSON'S

Women's Wear,
Dry Goods, Notions Etc.

Will continue in business at the same location under the ownership and management of R. W. Simpson with the same employees as in the past. Our highest endeavor will be to continue to make your shopping here a distinct pleasure. Every individual in this organization is whole-heartedly determined to give you the most helpful and complete service.

Highest Quality----Modest Prices

Not only will the styles continue to be the best and newest, no better merchandise will be found in Ada than here.

Our best wishes and good will are extended to the new firm of Smith & Cole, Inc., who will be our adjoining neighbors.

We wish to express our sincere appreciation for the patronage with which you have so generously favored us in the past and trust we can continue to merit your confidence and co-operation in the future.

EXTENSION WORK PLANNED FOR HOLSTEIN BREEDERS

CHICAGO, Jan. 6.—Extension work on an intensive character, with the employment of district fieldmen for Pennsylvania, New Jersey, Delaware, Washington, Idaho and Oregon, is planned by the Holstein-Friesian Association of America whose officials are seeking to interest breeders in sales and marketing and efficient production. The 50,000 Holstein breeders in the country have more than 500,000 registered animals, the association estimates.

Waner Sounds Note of Optimism; Year Full of Advantages

A note of optimism has been sounded by the secretary of the Chamber of Commerce. He is urging citizens of Ada to co-operate, have more confidence and take advantage of the "wonderful field of opportunities facing us for the coming year." Following is a statement issued Saturday by Ralph Waner, secretary of the civic body:

What shall we do another year?

Shall we just sit around and let the rest of the world, with all its industries, enterprises and community development, pass by, or shall we get busy and build a station on this "road of the world" and demand that a few of these industries, etc., be labeled for destination at ADA?

There are a very few people in this growing city that have a habit of wanting to "just sit around" most of us are ready and willing to put our shoulder to the wheel and push Ada to the top. We have plenty

workers to build this big station, now, what about the kind of material that should be put in this building? Pessimism, unfaithfulness and loose business methods is not the kind of material that would build a station that would attract many worthy travelers of this "road of the world" so we must build of the better materials such as Cooperative, public spirited citizenship, solid conservative business methods, etc.

Many Opportunities

We are entering this year 1923 with a wonderful field of opportunities in which to work. A great many things may be accomplished during this year if we will build the station and put out our "flag of invitation." We must put our city out in front and let the world know that Ada is on the map, let the many manufacturers know of the possibilities here and the many people know that we welcome them to our city.

Why not start the year right? Let us forgive and forget the many petty grievances we may have with our neighbor, strike off failures, sorrows and disappointments and make a fresh start in the struggle for happiness and success. None of us can glance backward at 1922 without a feeling of gratitude for the encouraging adventure made over the previous year. Industries and business concerns are on a more solid basis and people are more content and have more confidence in being successful in future undertakings.

With confidence comes success. The more confidence our citizens put into our city the more success we may expect to have in getting many worthy industries. We must have confidence in our fellowmen and co-operate in the many undertakings we may hope to accomplish in the future. All must be workers and boosters and ready to start with a board when the gong of opportunity sounds. If we will only do this we can feel assured that our material will build the station that the world is looking for and our city will soon be surprisingly enlarged.

Busy Year Planned

The Chamber of Commerce is preparing for a busy year. We expect to have the confidence and co-operation of the public and with this we should be able to accomplish many worthy undertakings. Open members meetings will be held monthly and we want every member to attend these meetings. A committee has been appointed to make

preparations for entertainment. It is hoped that these meetings will bring the ideas of the people closer together and cause a feeling of good fellowship among the members. A drive for new members will be launched within a few days and you can start the year right by getting your name on the membership list. We need a large active membership. The Chamber of Commerce can be just as big as the public spirit of Ada citizens. Faithful workers and boosters can build a greater and better Ada through the Chamber of Commerce and on the other hand, a few people of the "crawfish" type can do a great deal toward backing Ada off the map.

Lets resolve to do the best we can to help our city. To help our city is to our individual benefit as well as to the public. Loyalty to your city inspires confidence among your fellowmen. Be a "BOOSTER" not a "CRAWFISH."

TIRE BUSINESS LOOKING UP SAYS LOCAL DEALER

"Detroit dispatches, giving detailed information on the production programs of the various automobile companies of this world, center of the motor car industry, are of such an optimistic tone that automobile men all over the country feel the turn in the tide has finally come," says J. C. Sowers, local Federal Tire dealer.

In many cases, production today is on the same basis as two years ago. Excluding the great Ford production, the gain in the first months of the year on passenger car production was forty per cent, and thirty-eight per cent on trucks.

The total production of cars and trucks the first months of the year was 9,486, as compared with 78,995 in December. Those figures give only an indication of the steadily increasing volume of business which is now being felt by parts and accessory manufacturers as well.

The reports indicate that not only the big national shows but the dealers' shows in various cities, has been productive of excellent results, and while conservatively men of the industry believe the return to full production will be slow, yet they see in these figures evidences of a definite and permanent turn for the better."

WORLD SUPPLY OF WOOD DWINDLING

Unless Conservation Steps Are Taken Soft Wood Will be Extinct.

(By the Associated Press)

WASHINGTON, Jan. 6.—As never before the world is taking stock of what it needs, Chief Forester William B. Greeley says in his annual report. Not the least indispensable of these things is wood, he says, and to take stock of how much wood we have and what we shall need is an important step in determining our future attitude toward our forests.

"As a background to this broad inquiry," Colonel Greeley continues, "forest service investigations have recently completed a unique and exhaustive compilation of the forest resources of the world. One startling revelation is that so far as our great structural and all purpose woods—the soft woods—are concerned, we must become self sufficient or go without. Siberia has great forested areas, yet if all the Siberian timber were at the undisputed call of the United States the quantity available for annual export would hardly amount to one-fourth of our demands. Further, a great part of the forests of Siberia lie within the interior of the continent and never will be available. There is an immense reservoir of hardwoods in the tropics, which can be used for limited and special purposes and secured at mahogany prices. But the struggle for the world's supply of softwoods will become more and more intense, and those nations will fare best that prudently use their suitable waste lands for growing coniferous woods. This study shatters the dreams of those who rely on importing the timber we need when our own is gone.

"The situation is not hopeful when we turn to our own forests. There has been marked and fairly steady decline in our national output of lumber from about 46,000,000 board feet in 1906 to less than 34,000,000 board feet in 1920. This downward trend, which seems unlikely to turn permanently upward again at any time that can now be foreseen has taken in spite of a large increase in population, with its increasing demand for housing, furniture and wood in many other forms. The decline in the production of lumber and the increase in population have resulted in a striking drop in the per capita consumption of lumber—from over 500 board feet per person in 1906 to about 320 board feet in 1920. The decline in the consumption of wood unquestionably means a shortage of housing is an impressive example."

"The shortage of lumber, with its corollary of high prices, has followed the westward sweep of lumbering, while the bulk of our population and the greatest demands for lumber remain in the Central and Eastern States. The Nation's lumber shipment in 1920, a recent Forest Service study shows, was no less than 2,070,000 carloads; and the average haul for each carload was 485 miles. According to the best estimate the forest service is able to make, the freight bill on lumber for that year was \$275,000,000. This sum merely gives one measure of the cost of treating our forests as mines instead of timber farms. A fraction of this sum wisely invested each year in forest protection and rehabilitation would grow timber where it is needed, reduce the Nation's freight bill, cheapen lumber, and release vast amounts of rail road equipment and labor for unavoidable transport. Coal and iron can not be grown, but timber can be."

National Treasury Profits From U. S. Forestry Returns

(By the Associated Press)

WASHINGTON, Jan. 6.—Revenue amounting to \$5,063,527 was paid into the treasury from the national forests during the fiscal year 1922, according to the annual report of the Forest Service. Nearly \$4,500,000 in receipts were derived from the use of timber and forage. The remainder were for use of land, including waterpower sites. Receipts for the last quarter were far in excess of those for any previous quarter in the administration of the national forests, except one in 1920, it was reported.

Income producing business in the national forests showed remarkable stability, the report continued, in view of the depressed or uncertain conditions in the timber and live stock industries of the west, which afford the principal markets for national forest products. The abnormally low output of western sawmills which caused a decrease in receipts from timber sales for the preceding year, continued until the last quarter of the fiscal year 1922, but for that quarter they exceeded \$620,000 and for the entire year totaled \$1,780,347, almost identical with those of 1921.

Approximately twenty-two percent of the cattle and fifty-three percent of the sheep in eleven western states are grazed upon national forest ranges during a part or all of the year. Of national forest receipts twenty-five percent are given to the counties in which they lie, to be used for schools and roads.

FORD AGENCY BUSY ON ISSUANCE OF LICENSE

W. E. Harvey Ford agency this

week has been busy writing auto license applications for owners of Ford cars. License applications for owners of Ford machines are granted without the extra commission charge by the Ford agency here.

Sale of touring cars to W. H. Brents of Hickory and A. L. McNichols of Stonewall are also announced. Reports are that more than 25 applications have been received up to date. Ford applications

only are received.

They all Fall for Clarence!

CLARANCE is the big genial hero of the greatest American comedy ever written. A love story that turns the highlight upon the average American home. New York roared over it for two years on the stage. Now, with three stars in the leading roles, it's funnier than ever on the screen.

Ford THE UNIVERSAL CAR

Interesting Facts

106,327 FORD CARS AND TRUCKS RETAILED IN NOVEMBER

What Does This Mean?

It indicates a volume of business during the rapidly approaching months of "heavy demand" which will be far beyond the maximum production schedule which the Ford Motor Company has set.

And that means a Ford shortage even more acute than the one which existed last spring and summer.

The only way you can protect your desire to obtain prompt delivery of a Ford even at this time is to place your order immediately.

We believe you are entitled to know these facts as they actually exist.

Executive Committee of National Buying Agency Meet at Tulsa	
TULSA, Okla., Jan. 5.—The executive committee of the National Purchasing Agents association will hold its quarterly meeting here on January 22 and 23. The committee members will be guests of the Oklahoma Purchasing Agents association. Meetings will be held at the Tulsa headquarters of the state organization.	HONOLULU, T. H.—Governor Farrington has requested the territorial department of public instruction to prepare a program for the inclusion of Far Eastern languages in the public school curriculum.

O. V. Borden, secretary of the Oklahoma association, is working with a committee on arrangements and has announced that a banquet January 22 will be the entertainment feature of the session. Representatives from all organizations that have memberships in the association or that employ purchasing agents will be invited to the dinner, Borden said. It is expected that the meeting here will give the problem of the oil industry special consideration.

"My thought is to find out what will be necessary to place oriental languages on practically the same basis as European foreign languages in the public schools on the mainland," Governor Farrington said.

"My thought is to find out what will be necessary to place oriental languages on practically the same basis as European foreign languages in the public schools on the mainland," Governor Farrington said.

This is what will eventually be done because the people who do business on this side of the world have the same cause for requiring a knowledge of oriental languages that the business men of the Atlantic have of requiring a knowledge of Spanish, French or other European languages."

Go Go Church Sunday

First Baptist Church
Our Sunday School begins promptly at 9:45. Mr. J. A. Ridling is the general superintendent. We have classes for all ages and cordially invite and urge those who are not already attending Sunday school to come with us.

The Men's Bible Class will meet at the McSwain Theater at 9:30. All men are cordially invited to attend. The class period closes promptly at 10:30. Dr. Laird is president of the class and Mr. Ellison is the teacher.

The morning worship begins at eleven o'clock. The choir is under the direction of Mr. Longly Fenten and Mrs. J. H. Boud will preside at the piano. The pastor will preach on the subject, "The Seeking Savior." At the close of the service we will observe the memorial Supper of our Lord.

The B. Y. P. U.'s will all meet at 6:30. Mrs. A. H. Davis is in charge of the juniors; Prof. A. D. Bolton will be in charge of the intermediates. The Blue and Gold will meet in the basement of the church and Mrs. Ray Backus will meet with them.

Senior No. 1, will meet in the main auditorium. They will render a good program as will all the other and the young people are invited to attend one of these organizations.

The evening service will begin at 7:30. We emphasize congregational singing at the evening service especially. The pastor will preach on the subject, "God's love and its gift." We will urge the unsaved to accept Christ the Lord. The general public is always welcome at any and all our services.

C. C. MORRIS.
Pastor.

OAK AVENUE BAPTIST CHURCH
We hope to have a full attendance at all services today. We especially urge the membership to be present. Let's begin the New Year right, by attending church.

We are now beginning our second year with Oak Avenue church, and glad to say that in the main, our work has been very pleasant among our people here and we have learned to love and appreciate them. We highly appreciate the fine way in which they have stood by us, and cooperated with us the past year, and we feel that we are getting things in fine shape for some real constructive work this year.

A cordial invitation is extended to everyone to all of our services. Sunday school begins promptly at 9:45 a. m. B. Y. P. U. at 6:30 p. m. Preaching at 11:00 a. m. and 7:30 p. m. Theme for morning service, "God's Marching Orders to His Church." Theme for evening service, "The Appeal for a Divine Claim."

J. H. Page, Pastor.

NAZARENE CHURCH
Sunday school, 9:45 a. m. Preaching by the evangelist, W. E. Ellis at 11 a. m.

Junior league at 4 p. m. Young People's society at 6 p. m. Preaching at 7 p. m. Bible class and chorus practice 7:30 p. m. Tuesday. Teachers' Missionary society at 1:30 p. m. Wednesday. Prayer meeting at 7:30 p. m. Thursday.

Everybody cordially invited to attend these services.

P. E. McCain, pastor.

NAZARENE REVIVAL
The Nazarene revival is still in progress. Many souls have sought and found God during the soul-winning revival at the church. Seekers at the altar have been numerous at every service.

Reverend Ellis is doing a great service in the Kingdom and God is honoring his work in the salvation of many souls.

Come and hear him.

The Pastor.

FIRST CHRISTIAN CHURCH
"The Friendly Church"
216 S. Broadway

Sidney Smith said: "To do anything worth doing in the world we must not stand shivering on the brink and thinking of the danger, but jump in and scramble through as well as you can." We are entering upon New Year this morning and have adopted the above quotation as our slogan. Will you too?

Bible school, 9:45 a. m. Morning worship, 11:00 a. m. Junior C. E., 3:00 p. m. Intermediate C. E. 6:30 p. m. Senior C. E. 6:30 p. m. Evening worship 7:30 p. m. A hearty welcome and a worshipful helpful service await you at the friendly church.

Special rally day, Jan. 21st. Get ready for the big rush.

F. G. Davis.

W. B. M. S.

The women's Baptist Missionary Society has just closed its January week of prayer for Foreign Missions. Each day a very interesting program was given and the study of our missionaries, their work and their needs has given us a keen insight into the demands of the foreign nations upon us as a Christian nation. God's hand is directing this worthy and noble work. It is only through prayer that we may approach Him and when we meet and pray daily no one can fail to feel His presence nor ignore the pressing demand to "Carry on His work."

The attendance at this meeting was good and yet we might easily have doubled the number had our women recognized the importance of the call to prayer.

We wish to thank each one who gave their time and efforts to

make our week of prayer for foreign missions a success. He will reward you.

Beginning Monday, March 5, we will observe a week of prayer for Home Missions. It has been decided to ask our district president, Mrs. Eula Grubbs, of Ardmore to be with us that week. We are praying for much inspiration and many blessings from that meeting.

The society will meet in districts next Monday for Bible study.

District No. 1, with Mrs. Sam McClure, 1113 S. Belmont.

District No. 2, with Mrs. D. C. Payne, 401 W. 17th.

District No. 3, with Mrs. E. K. Smith, 601 S. Townsend.

District No. 4, with Mrs. C. C. Morris, 411 S. Broadway.

District No. 5, with Mrs. S. H. Mount, 823 E. 10th.

District No. 6, with Mrs. J. C. Treadwell, 222 S. Constant.

District No. 7, with Mrs. Aubrey Keir, 309 S. Francis.

We urge all members to attend that the Bible outline "The Ministry of Women" may be quickly finished and work in the new books for the year started.

The president with helpers will meet with the women of the West Side Baptist Mission at the Mission Monday afternoon at 3 o'clock for the purpose of organizing a circle of the W. B. M. S. there. We need more workers and many women need to do more work for the Master. Come let us work together for the Lord.

Mrs. Harry E. Deering, President.
